Right, Sir, but ELECTRIC RATES ARE STILL LOW!

> * Electricity still is cheap . . . that's good news anywhere these days! With practically everything costing more than it did before the war, it's comforting to know there's one big exception . . . ELECTRIC SERVICE RATES STILL ARE LOW!

> Providing your electric service costs more now, too, than it did before the war began. Taxes have jumped unbelievably . . . from approximately \$1,400,000 in 1940 to \$2,100,000 in 1942. But, in spite of these increases, we have been able to continue your same dependable electric service at the same low rates. As far as we can foresee, the careful, experienced management that has been able to keep your electric rates down so far will be able to continue doing so.
