Livestock Men to Hear Conway

of County Agent Waldo.

Livestock men will have an opportunity to get first hand information and advice on the feeding situction and outlook for the coming year from the well-known market observer and forecaster, H. M. Conway. His appearance in Cass county is scheduled for Wednesday, Sept. 15, at the auditorium in Weeping Water starting at \$:00 P. M. W. W. Derrick, well-known Nebraska Extension Animal Husbandryman will also be on hand.

The fore part of the meeting will be devoted to a short business session of the Cass County Livestock Feeders' Association of which Parr Young is president. All those interested in livestock feeding are invited to be present at 8:00 P. M.

Conway who is connected with the National Livestock Marketing Association has become very popular in Cass county during recent years because of his clear cut, accurate forecasts as to the probable outcome of Butters to Stretch Butter livestock feeding operations. Bureaucracy

Whether it is Italy, Germany or Japan-or the United States—people always pay a pitiful price for bureaucracy as expressed in the above headline. Sometimes governmental bureaucracy appears to be efficient but as the newness wears off, bureaucracy—whether it is political control of food stores, the medical profession, the electric business or any other business or profession—is very expensive to the people.

Governmental interference—even when it appears to be centered on only one industry-may be the beginning of a program that will establish bureaucratic control and even political ownership . . . destroying the system of Free Enterprise which made our America the great nation that it is.

WHAT IS MEANT BY FREE ENTERPRISE

No believer in American Free Enterprise, no business or professional man opposed to government in business, can afford to sit idly by when any business or industry is endangered. No man's business or profession is safe, nor exempt, from this program of political control.

Every man with a job should be on guard. Today the "politicians-in-business" program touches the electric business. Tomorrow it may be the food business or any other. Who knows who is next?
