Individual Sales Down

Washington, Sept. 22. (UP)—The Treasury department found individual war bond sales lagging today, but expected intensive doorbell ringing by its canvassers to take up the slack.

Listing yesterday's sales at \$425,000,000, the Treasury reported a 13-day total of \$11,170,000,000, near the three-quarter mark in its \$15,000,000,000 drive, but it reported sales to individuals totalled only 35 per cent of the quota. Urge Truckers To Give Lifts To 4-H Clubbers

Live Stock Show Promoters Urge All Who Can Give the Young People a Lift

Omaha, Sept. 21. — Truckers, salesmen, county extension workers and all other persons driving to Omaha on business October 5th or 6th are urged by Harry B. Coffee, chairman of Ak-Sar-Ben's sixteenth annual live stock show, to give a lift to 4-H club members coming to participate in the show.

"The OPA suggests this step as a way for club members to attend the annual Ak-Sar-Ben Exposition, which will be held at the Union Stock Yards October 6, 7 and 8," Coffee said. "Of course, every car owner has 120 miles per month personal driving allowance which can be saved up for this purpose, if desired. However, the method suggested by OPA would provide the necessary transportation for hundreds of boys and girls who plan to exhibit at the show, and at the same time would save much gasoline for the use of our armed forces."

Exhibitors were asked by Coffee to ship their cattle and hogs to arrive on Tuesday, October 5th, the day before the competition opens, if possible. He stated that the horse barns, where the show will be held, will be otherwise occupied previous to that date. However, any show stock which comes in prior to Tuesday will be accepted and given temporary stabling elsewhere until the show barns are ready. All stock must be in place by 8 a. m. Wednesday, October 6th, when the judging starts.

Feather Your Nest—Buy War Bonds

Would Protect States

Lincoln, Neb., Sept. 21. (UP)—Gov. Leverett Saltonstall of Massachusetts, said today that the council of state governments would establish a lobby in congress to protect states' rights against federal encroachment.

Saltonstall said the nine-governor executive committee of the council decided at a meeting yesterday that the lobby also would determine which federal agencies were essential to the war effort.

He announced a seven-point program for "early consideration" of the following problems:

1. Taxation— Assumption by the federal government of sources of revenue, more properly in the interests of the state.

2. Rehabilitation of war materials, social security and unemployment compensation as it relates to veterans.

3. What to do with government-owned industry and housing after the war.

4. Federal activity in schools where such activity is not carried out through the state departments of education.

5. Regulation of insurance companies by states.

6. A satisfactory method of approach in checking activities in which the federal and state governments cooperate.

Governors attending the executive meeting were: John W. Bricker, O.; Dwight H. Green, Illinois; Herbert Maw, Utah; Earl Warren, California; J. Melville Broughton, N. C.; Spessard Holland, Florida; and Dwight Griswold, Nebraska.

Washington, Sept. 20. (UP)—The America people have subscribed more than two-thirds of the \$15,000,000,000 Third War Loan, of \$10,239,000,000, the Treasury department announced today, as the nation-wide campaign reached its half way period.

Officially launched on Thursday, Sept. 9th—the drive is scheduled to end Sept. 30th. The treasurer announced that the seemingly great speed with which the money is rolling in is due to the fact that the big buyers—corporations and the like—have made most of their purchases and that small investors must subscribe to the remainder.

Says Manpower Waste

Washington, Sept. 21. (UP)—Senator Harry S. Truman, D. Mo., chairman of the senate's special war investigating committee, today accused the army and navy of "waste of manpower," and demanded that they achieve greater efficiency before fathers are drafted.

Truman made the charge during a senate speech in which he said he will vote against a bill to defer fathers until January 1st, because "that's an administrative and not a

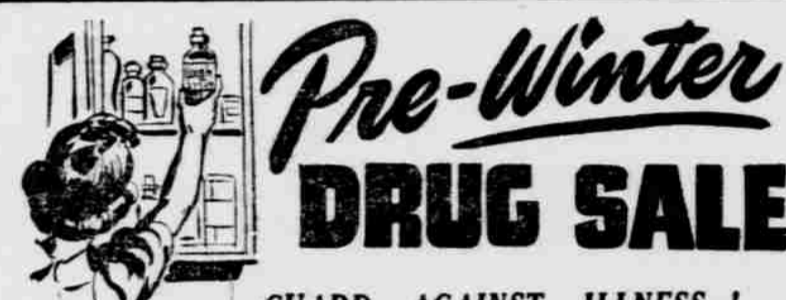

legislative matter." Sen. Burton Wheeler, D., Mont., author of the father deferment bill disagreed. He asserted that it is the duty of congress to fix the overall policy.

Truman's speech opened floor debate on the question which is not expected to reach a vote in the senate before the middle of next week. The debate will be recessed again tomorrow for an appearance before the Senate Military Affairs committee by Bernard M. Baruch, advisor to War Mobilization Director James F. Byrnes.

Wheeler expects Baruch to substantiate his claim that there is labor hoarding in war industries which if eliminated would obviate the need for taking pre-Pearl Harbor fathers.

Truman asserted that "huge blocks of manpower are still being hoarded or wasted by continuance of the practice which management and labor have a clear duty to end." He leveled most of his attacks, however, on the army.

If Hitler wins, the issue for you will be living itself and not just the cost of living. Think that over and figure it out for yourself how much beyond 10 percent of your family income you should put into War Bonds every payday.
