Snow, Rev. Pryor and Rev. When we ask for news these days, the answer is that they are picking corn while the good weather lasts. Some report the finest corn which

they have ever raised. The acreage runs from forty-five bushels to the acre to one party east of town, who is hoping for an eighty acre yield. It certainly sounds good, with prices ranging high and the first fine crop for several years. We are happy that Cass County farmers are again getting returns for their hard work.

W. J. Partridge has sold his interest in the Ft. George Filling station to Harold Nickles of Plattsmouth, and expects to move back into Weeping Water and again take up his quarry business. Some people seem to have the knack of being forehanded in many things. Fred Rehmeier is one of those men. He seems to have been the first to complete his corn harvest, and has been shelling his corn. Of course, a great deal of that corn will be fed to those fine Chester White hogs, which he raises, but his estimated crop of five thousand bushels is a large amount of corn for even Chester Whites to eat.

This new jury service for women is new to our Nebraska women. It is not new in some of the other states. We remember that quite a good many years ago, while visiting in the state of Washington, that women there were called to duty on the jury and their work was highly praised by the judge.

If man doesn't own his own home in Weeping Water, these days, he is in a position where his home is apt to be sold and he has no place to go. There are a few cases like that in town, now, where the tenants have to give possession and they can find no place to which to move. There are no vacant houses in town, except one large house, too large for an ordinary family and too hard to heat, with coal and wood so scarce.

"...and you'll always have tobacco in your old tobacco box!"

WHEN I was a kid my father used to sing a song that ended up with this refrain:

"Oh, save up your money and put it in your box, And you'll always have tobacco in your old tobacco box."

Well, the words stuck with me, but I guess the moral didn't.

No matter how hard I tried ... I never seemed to be able to save up a red cent.

But it's all different now!

About 10 months ago, I started buying War Bonds on the Payroll Savings Plan. Figured it was the least I could do for Uncle Sam.

And that's the only way I thought about it ... until just recently.

Now, all of a sudden, I've discovered that—for the first time in the history of Yours Truly—I'm saving dough. Every month, rain- or- shine, hell-or-high-water I'm sticking away a War Bond, a Bond

that'll bring me back \$4.00 for every \$3.00 I put in.

Those Bonds are beginning to mount up now. And I'm going to keep them mounting up. For I've discovered what a swell feeling it is to be saving ... on a plan that's regular as clockwork and twice as sure.

So I'm singing father's song ... a little different. "Oh, save up your War Bonds and put them in your box, And you'll always have tobacco in your old tobacco box."
