

SURPRISE OLD FRIEND

Last evening, November 12, a good number of friends of L. Neitzel came to surprise him, bringing a quantity of delicious edibles with them, and to congratulate him on his 89th birthday anniversary.

A delightful hour of fine christian fellowship, with scripture readings, songs and prayer, preceding the address of Rev. C. Jannen, and a suitable response by Mr. Neitzel.

It was an occasion long to be remembered by all present. They were: The pastor, Rev. J. H. Oehlerking and wife, Rev. and Mrs. C. Jannen, Mr. and Mrs. August Ruge, Mr. and Mrs. Frank Rosenau, Mrs. Martha Kruse, L. Neitzel, and Mrs. Clara Harting of New York, the latter a daughter of Mr. Neitzel, who was spending a short vacation in Kansas City, Mo., and arranged to be here and help celebrate her father's birthday before returning to New York. Her presence added much to the pleasure and joy of the evening.

Songs and prayer closed the celebration.

After the morning fog cleared away, Armistice Day proved to be bright and sunny, but very cold, so the dedicatory service for the new honor roll, a memorial to the Weeping Water men in service, which has been placed on a large bill board at the Methodist church corner, was changed and was held at the auditorium, instead of on the street in front of the board, as had been planned. This caused a confusion as many waited for the crowd to gather on the street, and missed the service. The service was in charge of the Weeping Water American Legion, of which Joseph John is the commander. Fred Allen presided at the service. Rev. W. D. Lenker opened the service with prayer and Clarence Miles of Lincoln gave the dedicatory address. He said "These boys had nothing to do about getting our country into this war, but they had to go to represent us. Some didn't want to go, perhaps, but they didn't want to stay at home either. Some were too young, but they go anyway. These boys in service are paving the way for present younger generation, and all generations to follow. We should make preparation for their return, by helping the younger people to understand what these men are doing for our country. We must help these service men to find an understanding attitude in the hearts of our people when they return home." Rev. John C. Pryor pronounced the benediction.

A ball game between Nehawka and Weeping Water, in the afternoon, and a dance at the auditorium, closed the Armistice program. All events were in charge of the American Legion.

As it was impossible to get around it, they had to remain in their truck from Sunday evening until about eleven o'clock Monday morning. They have relatives in Fairbury, and Mrs. Mutter and Billy had gone with Mr. Mutter so they might have a visit with relatives. They kept the heater on as long as their gasoline lasted, after that they had to remain without heat in the truck.

One hundred fifty-two names are on the honor roll at this time across the street, at Shrauger's Pharmacy, there is another honor roll. It is the pictures of the members of the American Legion, most of whom were in World War I. This, too, is attracting a real deal of attention. It is hard to distinguish some of our business men by the pictures of the young men of the war of 1917 and 18.

What You Buy With WAR BONDS
Hard Work; No Cheers

There's nothing romantic or spectacular about a navy tug, a wrecking derrick, but in waterborne warfare their work must be accomplished before our ships move in, before our ships move out. Wrecked planes, wrecked ships must be cleared from harbors before other ships of the fleet can function. Something like War Bonds; nothing spectacular about them, but the nation must support the war through them if we are to win victory.

Victory Calves Can Be Raised On Little Milk

Purina Merchant Suggests Plans for Saving "More Milk for Victory"

Over 1,000 pounds of milk can be saved on each dairy calf raised, says the Purina Merchant of this city, by substituting grain rations, especially prepared for growing calves. The milk saved from this practice alone, he states, would go a long way toward supplying the additional milk needs of our armed forces, and would result in just as good or better calves at considerable saving in cost to dairy farmers.

Calf Runs With Cow 4 Days

To raise "Victory calves", he suggests that the calf be allowed to run with its dam only four days. During that time, it gets the colostrum milk which is high in Vitamin A.

Teach Calf to Eat

After the fourth day the calf should be taken from its mother and taught to eat dry feed. This can be done by placing a handful of feed in the calf's mouth and holding it shut until the calf gets the taste.

Because the calf will not eat much dry feed at first, it should be milk-fed from a clean bucket until 30 days old, gradually decreasing the amount until it is completely switched to the dry-feeding program.

Save Milk With Calf Starter

Clean water, block salt, and good hay in addition to the grain ration should be kept in front of the calf at all times until she is 4 months old, after which a heifer-growing ration should be fed. This plan of raising good calves economically and releasing more milk for our soldiers and fighting allies is a part of the Food for Victory Crusade now being sponsored by the Purina Merchant.

"Take her down!" With these words, Commander Gilmore signed his own death warrant. Rather than risk losing his boat and crew, from enemy fire, the wounded Commander ordered his submarine to submerge—with himself outside.

How much is "duty"?

WHEN A SOLDIER charges up a newly established beachhead heedless of the shells and machine-gun bullets ripping around him . . . that's duty.

When a sailor stands at an anti-aircraft gun fiercely firing at an enemy plane, disregarding the bombs and lead falling from the skies . . . that's duty.

A soldier or a sailor has duty clearly defined for him.

But how much is "duty" for a civilian?

There is no clear definition. But there is one job which every man and woman of us must consider duty if he would like to see the war shortened and our fighting men back with us.

That's—Buying War Bonds. Not just a few. As many as you possibly can afford!

For your own sake . . . for the sake of your fighting men . . . for the sake of your country . . . boost your buying through Payroll Savings!
