Her description of the many varieties of birds, and their habits and different ways of building their nests, was most interesting. DIES IN ELECTRIC CHAIR

Columbus, O., Jan. 15. (UP)—A boy died in the electric chair last night, praying for forgiveness. Louis Vernon Hand, 17-year-old farm boy who beat little Richard Stover, six-year-old son of his employer to death with a hammer last summer, was executed in Ohio penitentiary for the murder.

Although he had been boastful and defiant after his conviction, saying he would "take whatever they can dish out," Hand died murmuring "the act of contrition" of the Catholic faith.

IT'S WONDERFUL...

WHAT FOOD CAN DO!

FOOD is the world's greatest pacifier. That goes for hungry nations as well as hungry babies.

Today—food is even more important than ever, because there is not enough of it—in spite of record crops—to satisfy all the demands at home and abroad.

Americans will not go hungry. Our armed forces and our civilians are being served first from a record American harvest. But our fighting Allies and liberated people who have been systematically starved through Axis domination—they need food, too.

YOU can help make sure there's enough food to hasten our Victory . . . and enough to keep your own family well fed. Here's how:

1. PRODUCE FOOD, where and when you can. Farmers are urged to meet farm goals. City families are urged to plan a bigger Victory Garden, to help out on a farm or in a food processing plant if possible.

2. CONSERVE FOOD. Can and preserve food. Cut waste. Stretch your food supply by substituting plentiful for scarce foods. Balance your meals.

3. SHARE FOOD. Put the war's food demands first. Share the supplies willingly with your

armed forces, your Allies, your neighbors.

4. PLAY SQUARE WITH FOOD. Accept no rationed foods without giving up ration stamps. Pay no more than top legal prices under any circumstances.
