## WE GET ALONG FINE ON OUR PARTY LINE

Because we have such cooperative telephone neighbors.

One of the first things we did after we had our party line telephone installed was to get acquainted with our telephone neighbors, the folks who are sharing the line with us.

We found them to be grand people anxious to cooperate just as we are, because we both realize that it is only with this friendly spirit that party line service can be truly satisfactory.

Just two simple rules that we both follow do the trick. We limit our conversations to five minutes, and we always listen on the line to see if it is in use before calling.

Be Good Telephone Neighbors. It Pays Dividends in Added Service and Makes that Service More Enjoyable.

## THE OLD JUDGE SAYS...

"Did you hear that Tom is going to be inducted into the Army next week, Judge?" "Yes, Frank told me this morning down at the barber shop. Our town's got a lot of men in the service now, Jim. In fact, all towns have. I was just reading in the paper where there are more than 10,000,000 men away from their homes in the armed forces. And, from all reports, they're doing a grand job bringing victory closer every day. "We folks at home have a mighty big obligation to those 10,000,000 fighting men. We've got to produce the food to keep them

well fed. We've got to keep them supplied with the ammunition and equipment they need to finish their job. We've got to help the Government pay for all these supplies our men need by buying more and more War Bonds. We'll have another big chance to do that by helping to put the 5th War Loan drive over the top, Jim. "And, in addition, we must be sure that, while they're away and can't express their opinions, we don't go voting on and deciding any things that will displease them when they come back."
