# The battle for the World is on!

Now that the chips are down... now that our men are writing decisive history with their blood... There can be no halfway measures for us.

The greatest battle in the history of the world must be matched by the greatest war loan in the history of the world.

That's what Uncle Sam says... the same Uncle Sam for whom your brothers and sweet hearts and husbands are fighting and dying this very minute.

They, in the front lines, are throwing in everything they have.

We, behind the lines, must do the same.

Remember, this is the battle for the WORLD. Our world. And we've got to win it. That's why Uncle Sam expects every dollar, like every soldier, to do its duty.
