

FILM STAR LONGS FOR FAN DAYS

June Haver, Hollywood's latest "success story," whose rise to stardom in one picture has provided food for amazement throughout the industry, admits to one of the strangest "suppressed desires" on record—for a motion picture star at least.

The diminutive blonde beauty of "Home In Indiana" fame, who can be seen currently with Monty Woolley, Dick Haymes and a sparkling cast in 20th Century-Fox's Technicolor musical "Irish Eyes Are Smiling" at the Cass Theatre, has come a long way since she made her debut as an entertainer at the age of 7. On that occasion she played Haydn's

"Surprise Symphony" as solo pianist with the Cincinnati Symphony Orchestra.

The switch from piano prodigy at 7, to Hollywood star at eighteen has phased her not at all—but it has been the direct cause of her "suppressed desire."

Ever since she can remember, June has loved moving pictures. Whatever spare time her amazing career permitted, she spent in moving picture houses.

Now she's so busy making pictures she never has time to see them any more!

Seldom has Hollywood excitement centered on any star as it currently is on June Haver. The beautiful and talented eighteen-year-old actress won sensational acclaim for her outstanding performance in "Home In Indiana."
