## Federal Aid to School is Aim of Two Bills

Meade Bill Would Provide For \$550,000,000 Aid to Both Public and Private Schools.

Washington, -U.D. Two bills to furnish federal aid to schools are being studied by the Senate education and labor committee to see which, if either, will best fit the needs of the nation's school children and at the same time be acceptable to all 48 states.

With an apparently hard choice to make, there appeared some psssibility today that the committee might scrap both measures and write its own bill incorporating features of both.

One measure, proposed by Sen, James M. Mead, d., N. Y., provides for permanent annual appropriations totaling \$55,000,000 for aid to both public and non-public schools. The other, by Sen. Elbert D. Thomas, d., Utah, is principally a war emergen. cy relief measure calling for \$200,000,000 (m) a year for payment of salaries of school employees for the duration of the emergency. However it would set up a permanent annual pool of \$100,000,000 to be divided 48 ways for equalization of public educ
