Air Medal Awarded Charles Armstrong For 'Hump' Flights

AIR TRANSPORT COMMAND BASE, INDIA—(Special)—Pvt. Charles W. Armstrong, aerial radio operator, of 518 5th avenue, Plattsmouth, Nebr., has been awarded the air medal, it was announced by Brig. Gen. William H. Tunner, commanding general of the India China division, air transport command.

The award was made upon completion of 250 hours of operational flight in transport aircraft over the dangerous and difficult India-China air routes, where enemy interception and attack was probable and expected.

The air trail over the Hump, famed route through the towering peaks of the Himalaya mountains, blazed by the air transport command, is recognized by airmen as the world's toughest. Today the Hump route is the main life-stream of vital military supplies for the allied forces fighting the Japanese in China.

The citation accompanying the award adds:

"Flying at night as well as by day, at high altitudes over impassable, mountainous terrain through areas characterized by extremely treacherous weather conditions necessitating long periods of operation on instruments... requiring courageous and superior performance of his duties to overcome, he accomplished his mission with distinction..."

The award was made for the period of service from Feb. 27, 1945 to May 30, 1945.

Troia Property Set Outside of the City

The Sebastiano Troia property in the northwest part of town, northeast of the Masonic home, was detached from the city of Plattsmouth in a decree on file Monday with Clerk of District Court, Ledway. The decree was signed by District Judge Dunbar.

Sebastiano had filed suit to have the property set out of the city, and Judge Dunbar ruled that the lands involved were of an agricultural nature, not urban, and should be detached.

The court ordered that any taxes due at this time should be paid by the plaintiff.
