Architect Report Is Submitted on Legion Building

If the American Legion building is to be used for a city auditorium an extension will have to be made to the building to provide adequate space for a full-size basketball court. This was the preliminary report of the architect asked by the city planning committee to inspect the building, the city council was told Monday night by councilman Henry Schneider.

West Side Extension The necessary extension could be made on the west side of the building, according to the architect's report. Such an extension would provide a court 50 feet by 88 feet with a good seating capacity. Schneider said the architect is preparing preliminary plans for such an extension and expects to have them completed sometime this week.

There will be no charge to the city to have the plans drawn, Schneider explained. Two petitions objecting to two of the ten paving districts recently created by the city council were read and referred to the city attorney for investigation.

Two Petitions Signed One of the petitions, signed by 21 resident property owners, seeks the repeal of City Ordinance No. 794, creating street improvement district No. 69. This ordinance provides for paving of Locust street from Seventh to Ninth streets; and Ninth street north from Washington avenue.

The other petition, signed by 29 resident property owners asks for the repeal of City Ordinance, 793, creating paving district No. 68. This ordinance provides for paving of Timber street from Sixth to Seventh street; Eight street between Timber and Walnut; and Walnut street from Seventh to Eighth street.

These two petitions were the only two submitted against the ten paving districts that were created by the city council on January 14.

Underground Tank The city council granted permission to the Williams Brothers Corporation, engineers, to install an underground gas tank on the west side of the Perkins hotel building. This corporation has rented office and warehouse space in the hotel to be used while the new pipeline is being constructed through Cass county.

A petition from Mrs. Blanche Price and others, asking for installation of a street light at the corner of Twelfth street and Avenue A, was referred to the lighting committee for investigation.

The lighting and finance committee reported that they had met with Fred Rea of the Light Company and that Rea has agreed to take care of emergency action to abate danger from certain city lights.

Nursery School to Close February 28; No Federal Funds

Superintendent T. I. Friest announced Saturday that the nursery school in the Central building will close February 28. Friest said that no federal funds have been provided for the school after that date.

The nursery school was first opened in May 1944 and federal funds were provided again to keep the school going until February 28.

Friest said, "The federal authorities apparently feel that the emergency is over and it is not likely that we will receive more funds for the nursery school. There are only 20 children enrolled at the present time as compared with 55 enrolled during the war."

Mrs. Harry White has been in charge of the nursery school with Mrs. Hebe Jones assisting.

He suggested that such supply barrels should be marked for refund, that purchase slips for such gasoline be saved and filled with the report for gas tax refunds. Papers for such refunds may be secured from the county clerk.

ORCHIDS—Orchids this week to Robert Gaines who received his Eagle scout badge in a special court of honor at the Holy Rosary parish hall Wednesday night. Earning the Eagle badge is one of the highest scout honors and represents a great deal of hard work. Bob attained this honor only two years after he joined a scout troop. He has received 24 merit badges. We offer our congratulations to Bob for his remarkable achievement.

THE SCOUTING PROGRAM—Next Tuesday the citizens of Plattsmouth will be asked to contribute to the fund needed for the boy scouts in the Cornhusker council. There is certainly no other organization for boys that better deserve the wholehearted support of adults. District Court Judge Thomas E. Dunbar recently made the statement at a scout program in Nebraska City that no boy who belongs to the scouts had ever been before him for committing a crime.

The scouting program builds good citizenship and good character. It is a powerful weapon against juvenile delinquency. It will be well to keep this point in mind when determining how much we can afford to give to the fund needed by the scout council.

FLASH FLOOD CONTROL—E. J. Richey proposed this week that the Business Men's Ad Club take some action and determine aids in preventing huge losses which have resulted in previous years to local merchants as a result of flash floods. He pointed out that a series of planned dams in specific sections of the city would control it until it drained off naturally instead of flashing through town and creating damage. Richey was named chairman of the committee to plan for the needs and procedure. We hope the committee will receive the necessary cooperation from the town to carry out such a plan.
