Friendly Farmers Unit

Hugo Meisinger conducted an illustrated discussion on soil conservation at the meeting of the Friendly Farmers Unit of the Farm Bureau held last Friday at the home of Mr. and Mrs. Emil Schmidt. A winner of the Cass county soil conservation contest, Meisinger's presentation proved to be of great interest to those who heard him.

Following the business meeting the remainder of the evening was spent playing games and singing songs. Refreshments were served by the hosts at the close of the meeting.

Plans were made for the next meeting to be held at the home of Mr. and Mrs. Walter Weiss on April 12.

Judge Dunbar

District Judge Thomas E. Dunbar returned Sunday after a ten-day stay in Hot Springs, S. Dak., where he and Mrs. Dunbar accompanied their son, John, who sought to benefit his health after long duty in the Pacific. He is a patient in the Veterans hospital there and is already improving. While Judge Dunbar was absent, District Judge Arthur Thomson, of Omaha, took care of the court matters here.

Catholic Daughters

Mrs. Fred I. Ren, grand regent, presided at the meeting of the Catholic Daughters held Tuesday evening at St. John's parish hall. During the meeting the members are working on a surgical dressings project for the foreign medical missions and the entire meeting was given over to rolling bandages for this work, which will be continued at the other meetings during Lent.

Clothing Stocks Limited to 30 Days

WASHINGTON (UP)—Clothing manufacturers were given the choice Thursday of getting their products to the consumer as soon as possible or taking a cut in profits.

Acting on reports that "sizeable" stocks of men's clothing and women's hosiery were being hoarded in hope of higher prices, the civilian production administration limited manufacturers' inventories to 30 days or less.

An another step on the clothing front the government announced it would raise futures margins of cotton to \$30.00 a bale at all exchanges in an effort to curb speculation and stabilize cotton prices.

China Farmers Get 180 Tons of Seed

SHANGHAI — China's good earth will grow food this year from tons of UNRRA seed. In acres formerly under Jap domination hundreds of thousands of farm families are receiving small packets of seed for beets, cabbages, beans, carrots, onion and cauliflower. Each packet contains enough seed to sow about half an acre and bears simple instructions printed in Chinese.

Immediately after the Japanese surrender, UNRRA sent 250 tons of seed to China. Now it is shipping special strains of U. S. cottonseed in addition to the vegetable seed.

The 180 tons of vegetable seeds for the packets were procured by UNRRA from the U. S. where the Department of Agriculture sampled, tested and examined them before export.

August Mumm, 69, Dies Wednesday

August Mumm, 69, died Wednesday evening at his home in Missoula, Montana, following a sudden heart attack.

Born in Plattsmouth, the son of Mr. and Mrs. Peter Mumm, he made his home here until after his marriage to Alma Timm who is seriously ill in the hospital at Missoula suffering from leukemia. Surviving him are his wife, three daughters, two sisters, Mrs. Pearl Larson of Omaha, Mrs. James Ditz of Cleveland, and one brother, Fred Mumm of Plattsmouth.

Army Announces New Point Schedule For All Officers

WASHINGTON (UP)—The army Thursday announced new discharge requirements under which nearly all officers who have served two years by next August 31 will be separated from service or enroute home by that date.

The exceptions are regular army officers, those who have volunteered for additional service, medical officers and a few of those in scarce categories.

The War Department said about 47,000 male officers and about 200 WAC officers will become eligible for discharge under the program.

Detailed plans for releasing enlisted men for July 1 are under study. Secretary of War Robert Patterson said yesterday the basis for release after that date would be two years of service. Under the present program, enlisted men with 45 points or 30 months of service are to be homebound by April 30. Those with 40 points or 24 months of service are to be enroute home by June 30.

Live Stock Reports

Omaha Hogs—Saleable 5,000. Market steady at ceiling of \$14.50.

(Continued from Page 1) cost GM an estimated \$5,000,000 annually, a union spokesman said.

The 18 1/2 cent wage increase boosted the pay of the average hourly-rated worker from \$1.12 to \$1.30 1/2, nine cents lower than the average paid by the Ford Motor Co. and two cents below that paid by the Chrysler Corp.

Both Ford and Chrysler have signed contracts with the UAW, the former granting an 18-cent increase to \$1.39 1/2 an hour and the latter a 18 1/2 cent increase to \$1.32 1/2.

The new pay scale amounts to \$52.20 for 40 hours work, compared to \$58.24 for 48, with eight hours at time and a half.

Barracks Ease Shortage

BATON ROUGE, La. (UP)—Some relief for the critical housing shortage in the Louisiana capital city was afforded recently when 40-odd families moved into apartments created from old barracks at Harding Field. The families are living in former officers' quarters.

(Continued from Page 1) sprinkler that uses its own hose for a track and creeps along it, as developed by Gus Covey of North Platte, Neb., ought to be of real value. It even shuts itself off at the end of the line.

Adding Machine Pencil

The patent office, itself, probably could use a few of Wayne M. Andrew's combination pocket adding machines and mechanical lead pencils, which he developed in his New York laboratories and which should be helpful for counting patent applications.

Anthony J. Miller lives in Chicago, where he invented the streamlined roller skates. You say, Kenyon, so what? They go faster, of course. Kenneth E. Bemis of Oakland, Calif., produced the patty former and wrapper and anybody using a lot of hamburgers, like Lil' Abner for instance, should appreciate it.

That brings us finally, Kenyon, to Gladys M. Campbell of Mamaroneck, N. Y., who patented two devices, one for the left hand and the other for the right, to keep the point off of everything but the fingernails. Ask Mrs. Kenyon about that one.

Of questionable practical value, indeed. Have a care, Kenyon, when you talk about trivial devices. There's nothing more dangerous than an inventor scorned; I should know and let's not go into that.
