**Electricity—MODERN MAGIC**

ELECTRICITY is a modern miracle worker—just like magic—doing a hundred and one tasks everyday, effortlessly, inexpensively—in the home, at the store, on the farm, in the office or factory. And no magician is needed to wave the magic wand. Electricity sets to work for you instantly at the mere flip of a switch.

**Broadening Nebraska's Industrial Horizons**

And speaking of electricity powering great factories, reliable electric power combined with attractively low rates has done much to help Nebraska on her way to becoming industrialized. Through the interconnected electric facilities of your Consumers Public Power District, the small as well as the large community benefits from this essential industry "tractor." For industry depends on power and very definitely when new industries were seeking sites in Nebraska the availability of reliable electric power and low rates was a deciding factor.
