

Two days old, and the six-pound Kelly in photo above is already pokin' a fist against a handy chin. Well, that's not surprising when you learn that newly arrived Virginia Ellen Kelly is the daughter of ex-Sgt. Charles E. ("Commando") Kelly, who taught the Germans a thing or two about fighting. THE STORY: One stormy night two mysterious strangers bring a baby into the hospital. They try to leave without any explanation but Dr. Willoughby calls the police. After the suspicious characters have been taken to headquarters, the lights in the hospital go out. Sally and Margaret are alone in the darkened receiving room when they hear a shriek. An unknown man enters, tells them to remain where they are if they wish to avoid unpleasant complications, then disappears. The hours pass and there is no trace of him. Sally says she never forgot his voice. Dr. Willoughby admits there probably is a connection between the two incidents.

EVEN though the hour was approaching midnight there was nothing especially weird or disturbing about the Receiving Room tonight. Sally Maynard stood before a window that faced the valley in which Lintonville slumbered. It glowed softly beneath a brilliant moon and myriad stars. Cars and trucks passed the hospital, slid silently down the long hill to the city and disappeared for a space to be seen later ascending the winding incline on the opposite side. The sight always fascinated Sally. She loved to watch these speeding monsters on their journey into the unknown.

"I don't suppose we shall ever know who that stranger was," Margaret Adams said almost regretfully now that time had subdued her terror of two nights ago. "I wonder who he was and what it's all about."

Sally turned from the window and shook his head. "I still think it's someone here—perhaps the J. at this end of the gang of thieves. Oh well, anyway I'm glad they discovered that boy's family—or those who are acting in his family's place. The police made short work of that affair, didn't they?"

absolutely sunk. But even I, scared as I was at the time, knew none of those thugs parading before us was the mysterious stranger. I hope to heaven I never do see him. There was something sinister about him—sinky and—and—well, sinister."

Sally laughed. "I can see you're not at all intrigued by mysteries," she said. "Well, I am and I hope I find that voice if only to satisfy my curiosity."

"THEY got all the loot back, didn't they?" Margaret asked. "They had plenty of time to get rid of it, seems to me."

"It was too hot or they thought it was," Doctor Willoughby explained as he joined them. "After all, there was merely a lapse of a week from the time of the robbery and abduction to their capture. Already Dean is beginning to accept the role of hero. You know they took him along because he discovered them in the act? That kid actually tried to capture those three ruffians single-handed. Great boy!"

"But how did he get so completely smashed up, Doctor?" Margaret wanted to know. "I've heard just scraps of the story but no one has explained that part to me. They didn't abuse him?"

"That happened on the night he was brought here. He had been kept a prisoner in some sort of shack near Lintonville and managed to escape. They discovered his absence and tracked him down some five miles out the River Turnpike. They swear he was lying in the road when they found him. That's their story and they all agree on it. The two men who brought him here declare they had nothing to do with it—that they were merely members of the searching party and didn't even know the other three. I don't know—I can't believe they are entirely innocent. And, what is more, neither does Sergeant Trimble."

"Then the case isn't settled?" Sally asked. "I have been wondering. It didn't seem to me the police could be so gullible."

"Don't worry. They'll ferret it out," the resident assured her with quiet confidence. (To Be Continued)
