We're Proud To Be On THIS TEAM! Ford The Ford Motor Company has just announced that the Ford three-window, six-cylinder business coupe is back in production at a price twenty dollars below that which prevailed when this model was temporarily discontinued last fall. This reduction, plus those announced last January 15th, makes the Ford business coupe and the two-door sedan the lowest priced cars in their field. We Ford Dealers are proud to be part of the organization that pioneered and is continuing such a clear, realistic and progressive policy. We consider this newest Ford price reduction still further proof that the Ford Motor Company leads in offering the American Public the most value at the lowest possible price. And we feel certain that it will play a definite part in speeding the return of sound and sensible prices, and a secure future for consumer, seller and producer alike.
