Declaring "a man is never too old to learn," 79-year-old James Nicklen, of San Francisco, is a freshman at the city's Junior College, majoring in chemistry and anatomy. Heretofore too busy making a living for himself and his family, Nicklen now has the time and inclination to seek the education he has always wanted. Above, he takes time out from studies to buy tickets to a St. Patrick's Day dance.

**Contributing  
to Better  
Government**

The brewing industry takes the same active interest as the public and public officials in seeing that provisions of Nebraska's excellent liquor control laws are properly observed wherever beer is sold.  
The Nebraska Committee, with its program of self-regulation, aims at better licensees and better taverns. Tavern operators are reminded of laws and regulations. Frequent observations of retail outlets are made. Warnings are issued when improper conduct or conditions are found.  
These efforts—which ease the work of enforcement officials, relieve the need for penalties, and help protect the best interests of the public—represent a contribution to good government.

**15 CATFISH  
WEIGHT 61 LBS.**  
Caught by Geo. Wylie on a marvelous new **CATFISH LURE**  
HERE'S HOW IT WORKS  
A lure dipped into a specially prepared emulsion, dries quickly into a firm but irresistible to catfish. Pictured above is the lure before and after dipping. It will cast like a bass plug and when in the water "Sluffs" a smoke-like substance that attracts catfish from a great distance. Bait can be made "Fast Sluffing" for pole fishing or made to last several days for set lines. Ingredients for emulsion may be purchased from local merchants and when made into bait will keep indefinitely.  
One sample lure with full instructions how to make lure and emulsion, will be sent for ONE DOLLAR. It's the best dollar you've ever spent if you want to catch catfish. Send your order now to:
