WASHINGTON REPORT by Howard Buffelt, Congressman, 2nd Nebraska District

Recently a spending project for Greece and Turkey passed Congress. This outlay, declared Mr. Truman, was intended to aggressively oppose the spread of communism.

Some skeptics declare the Greek-Turkey aid scheme is simply global WPA boondoggling, created to prolong inflationary spending in America.

Another observer declares that our handouts in Europe are not to resist communism at all. He says our billions are actually being used "to sweeten and subsidize the changeover of Europe from the free enterprise system to socialism."

For the facts on communism, the Congressional document, "Communism in Action," should be authoritative. Its opening sentences read as follows: "When the Bolsheviks seized power on November 7, 1917, they took over plants and industries as the first step in the establishment of the basis of socialism or communism."

Since V-J Day we have loaned both England and France some billions of dollars. During this same period in France the privately owned Bank of France and branch banking institutions, the coal fields, the electric and gas companies, and fifty-four large insurance companies have all been socialized.

In England since V-J Day, the privately-owned Bank of England, civil air service, the coal industry, telecommunications, all transport including railroads and trucking (effective January 1948), bulk cotton purchases, etc., have been socialized.

of our wealth causes inflation-which plows the ground for socialism in America. It's a fine kettle of fish, friend, any way you figure it!

CASS COUNTY EXTENSION NEWS NOTES

The annual meeting of the Cass County Rural Youth group will be held Wednesday evening, July 16, at the Louisville lakes. After a good swim a picnic supper will be served, followed by a short business meeting.

With the harvest of another bumper wheat crop starting and the oats harvest close at hand, it is a good plan to check grain storage facilities. Points to check might include: 1. Sufficient available storage space; 2. condition of roof, floors and foundation of granaries; 3. are weevil present, or should they be sprayed; 4. have the bins been swept out to prevent mechanical mixtures of different varieties and crops?

All these points are important whether the grain is intended to remain in the storage a few weeks or several months.

June Rainfall a Record

It is quite generally agreed that June, 1947, was one of the wettest Junes on record. Losses of livestock by storm and flood waters, washing out of crops, delayed cultivation and planting of crops have resulted.

However severe losses may be to the above mentioned items, the major loss suffered by Agriculture in Cass county was the loss of tons and tons of top soil which was taken away from our farms. The crops can be replanted, if not this year, at least another season. The soil which was lost is gone forever.

There are farms in all sections of the county on which special conservation practices are in effect. Take time to check with your neighbor or friend who is using these approved practices and see if his losses of soil and crops by washing are as great as the loss on your farm.

If conservation farming pays your neighbor, why would it not also pay you?

Moldboard Plow Terrace Demonstration and Contest

July 30th is the date set for the State Plow Terrace Contest and Demonstration to be held on the Charles J. Warner farm 10 miles northeast of Lincoln.

Entrants in the National Plow Terrace Contest, to be held on the Alvin Oehlerling farm in Cass county, August 27, will be selected by the State Soil Conservation Committee from the winners of this demonstration and contest.

There will be two classes of competition. The junior class is open to contestants under 21 years of age. The open class is for contestants of any age.

Plattsmouth Library News

Report of the librarian shows there were 2,552 books distributed during the month of June, a very fine showing for this warm month. Eleven new borrowers were registered and 25 new books added to the shelves.

The summer reading club now has a membership of 80 and a record showing of 20 who have finished the required selective reading.

Boys and girls, you still have a chance to become a member of this club. If you finish reading one book of history, nature, biography, travel, poetry and fiction, you may attend the treat sponsored by the library at the end of the summer.

New books added to the general library are: A New Biography of Woodrow Wilson, by David Loh; Gentlemen's Agreement, L. Z. Hobson; Kingsblood Royal, Sinclair Lewis; Give Us Our Dream, A. Goertz; Wind That Shakes the Barley, James Barke; Coyote Song, C. Holt; There's a Spot in My Heart, Frank Leslie; Cowboy Songs and Ballads, Loman; Left Hand Is the Dreamer, N. W. Ross.

The library will close at eight o'clock each evening during the months of July and August.

Miss Verla Leonard, Librarian.

Homecoming For Former Residents Of Mynard

A homecoming picnic dinner at the home of Mr. and Mrs. Glenn Wiles was an enjoyable event last Sunday, given in honor of Miss Stella Long and Mr. and Mrs. Thurman Wilson of Florida.

Miss Long and her sister, Mrs. Wilson, better known as Fern Long, spent their childhood at their home at Mynard. It has been about thirty years since Miss Stella has been back to the old home. Many friends of the Long family will recall that Mynard was laid out on the Long farm, and that Mr. Long built two or three of the first houses.

On the cool, shady lawn, the time was spent in reminiscing and taking pictures. Those who enjoyed the happy occasion were Mr. and Mrs. J. R. Tremble, Sherman Cole and Richard, Mr. and Mrs. C. C. Barnard, Mrs. Roy O. Cole, Dob and Mary Margaret, Mrs. Margery Norris and daughter Barbara, Mrs. C. L. Wiles, Mr. and Mrs. Geo. Jacobs, Mrs. Thos. Grosshans and children, and Mrs. Chester Wiles and children, and Mr. and Mrs. Glenn Wiles and Clarke.
