Yes— USED FATS Are Still Needed

says CLEMENTINE PADDLEFORD, Food Editor of This Week

Here's the answer to you women who are wondering if you should still save used fats! Secretary of Agriculture Clinton P. Anderson says, "It is still necessary to conserve every pound of fat, since the over-all fat supply situation is little better now than it was last year." You see, many things we use require industrial fats or their products, and there aren't enough fats in the world to go around, as yet. So every pound we women of America can save will help. Please... keep up the good work until we've got this situation really licked.

KEEP TURNING IN YOUR USED FATS

American Fat Salvage Committee, Inc.

Union

Mrs. L. G. Todd
