> Have You Seen Our Annual Report?

Nine years of beer industry self-regulation are reviewed in an annual report just issued by the Nebraska Committee.

It is a report which reflects substantial progress in raising the standards of beer retailing in this state, and you will find it interesting reading. A card or letter will bring you a copy by return mail.

Brewing industry self-regulation is a program which supports and supplements public authority-both state and local - in the enforcement of a good Nebraska liquor control act as it affects the sale of beer. The report describes some of the ways this is accomplished.
