Taverns Do Autumn House-Cleaning, Too
 Many Nebraska taverns are doing a commendable job of Paint-Up and Clean-Up this autumn. Now that building materials and repair supplies are more plentiful, many taverns are being improved and renovated.
 Most Nebraska taverns take pride in operating in an orderly manner, avoiding practices, conduct or conditions that are not pleasing to the general public.
 Where taverns are found to be unattractive and where violations of the law or the rules of good conduct are noted, the Nebraska Committee — now in its 10th year of effective operation — is quick to make suggestions for improvement.
 The Committee welcomes suggestions from citizens with a view to assisting state or local governing bodies in connection with the sale of beer.

"WE'VE STRETCHED IT AS FAR AS WE CAN!"

Yes, we've stretched our NATURAL GAS SUPPLY for heating purposes as far as we can. It's an unfortunate fact that we in the Gas business regret as much or more than anyone. But because of the acute shortage of large diameter pipe used to pipe in NATURAL GAS from the great fields of the Southwest—the pipeline companies have not been able to increase their facilities rapidly enough to keep pace with the growing demand. Until we receive an increase in our supply of gas, it is necessary to limit new gas services for house heating to new construction only. We feel that by limiting these house heating services to NEW HOMES—we are contributing toward the elimination of the critical housing shortage. To the many others who wish to install

NATURAL GAS for space heating we must say "Sorry, but we've stretched our supply as far as we can, at present." This curtailment applies only to Natural Gas for space heating. There is no restriction on the use of gas for cooking, water heating or refrigeration to either present or prospective users.

No curtailment will be placed on the use of Natural Gas for Water Heating, Cooking and Refrigeration, or commercial non-space heating uses by present or prospective customers.

"The GAS Company"
