Each group brought refreshments of cakes, cookies, doughnuts, sandwiches and coffee, and she was the recipient of a large number of beautiful gifts. Although Mrs. Rehmeier is still bedfast from her injuries received in an automobile accident last spring, she was able to sit up in bed, and to open each gift, and to enjoy the large number of birthday cards which had come by the morning's mail. The house was well filled with guests. Nine large birthday cakes, had been baked especially for the occasion. It was a happy afternoon for all who were privileged to attend, and a great day for Mrs. Rehmeier, whose condition is rapidly improving, and whose happy disposition makes a visit with her a never to be forgotten event.

### REPORTS ON BEEF PROJECT

Just to prove that it still possible to make a reasonable profit on 4-H baby beef that are not too expensive, A. H. DeLong, Otoe county agent, cites the project summary of Ervin Lechner of the Paul 4-H Feeders.

Ervin bought two animals to begin his project, paying \$106 for them. He put \$57 worth of feed into them, and had various additional costs that amounted to \$10. The total expense for the two calves was \$173.

At the close of the project the animals were valued at \$448.49, showing a profit as indicated by the records of \$275.49.

DeLong observes that it is evident Ervin bought corn for

around \$1.00 a bushel or even less and fed his animals wisely. He observed the three R's of 4-H feeding—buy right, feed right, and sell right.
