

## Weeping Water

Mrs. Thomas Murley,  
Journal Correspondent

Two wedding anniversaries were celebrated in Weeping Water Sunday, June 27. The first one was the gathering of one hundred ten friends of Mr. and Mrs. Chris Elgaard, at the city auditorium dining room for a covered dish dinner to celebrate their fifteenth anniversary, after which the afternoon was spent in visiting until four o'clock, when coffee and cake was served. The evening was spent with moving pictures taken in California and in Denmark by Louis Jensen of Long Beach, California, who with his wife are visiting Mr. Jensen's brother and wife, Mr. and Mrs. Knud Jensen. A purse filled with money was presented to Mr. and Mrs. Elgaard. Out of town guests who were here to attend the party were Mr. and Mrs. Orville Knacht, of Storm Lake, Iowa, and Mr. and Mrs. James Elgaard and two children, Joan and Bob, of Maryville, Missouri.

Sunday afternoon eighty-five neighbors gathered at the home of Mr. and Mrs. Ernest Bates, to help them celebrate their twenty-fifth anniversary. They brought baskets well filled with food and enjoyed an out-of-door picnic supper, leaving behind them a well filled purse as a reminder of the happy day. Pearl Embury and Ernest Bates were married June 27, 1923 in Plattsmouth, and have spent their married life on two different farms close to Weeping Water. Mr. and Mrs. Paul Embury of Lincoln attended the party.

Saturday evening there was a reunion of the Baker family in the Weeping Water park, with thirty-three in attendance. Charles Baker, of Toledo, Ohio, came the farthest. Sam Baker, 85, of Weeping Water, was the oldest member present, and Janet Lee Peck, of Blair, three week old daughter of Mr. and Mrs. Cecil Peck, was the youngest visitor. Other out-of-town guests were Mr. and Mrs. Charles Baker, Rock Island, Illinois; Mr. and Mrs. Simon Chalk, Newman Grove, Nebraska; Mr. and Mrs. Cecil Peck, Blair; and Mrs. Ivan Baker, of Rock Island, Illinois.

Weeping Water friends of Miss Edith Clizbe, who moved to Florida last year, after having lived all her life in Weeping Water, are grieved to learn that she received a fall, June 21, which left her with a compound fracture of her right arm and a broken right hip. She was at Clear Water, Florida, when the accident occurred, and was taken to the Morton Plant hospital, at Clear Water.

### The Premature Infant Problem

What is a premature infant? Any infant weighing less than 5½ pounds at birth is considered a premature. How many babies are born prematurely? About one baby in every twenty is born prematurely. Why are we so concerned about our premature babies? Because premature births cause nearly one-half of the infant deaths in Nebraska.

In 1946, 27,753 babies were born in Nebraska, 846 infants (babies

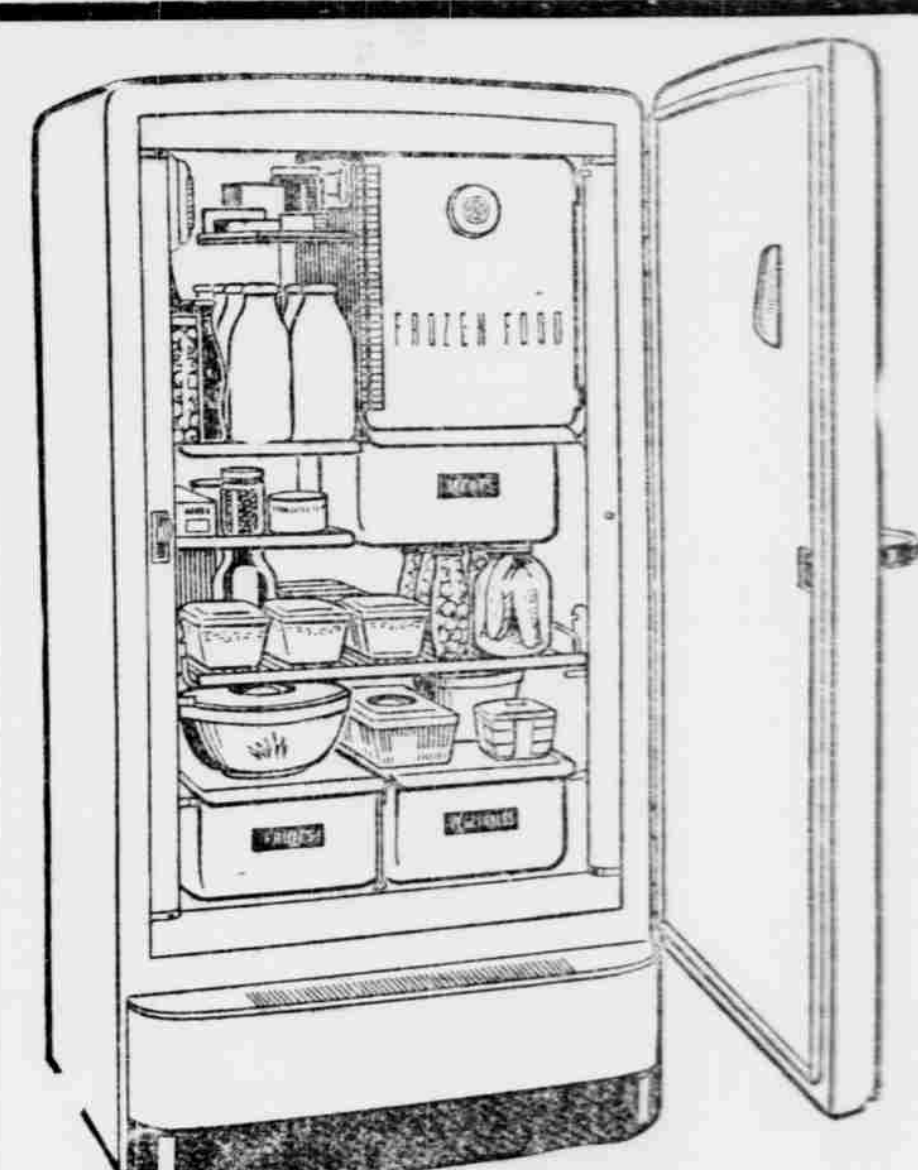

under 1 year) died, 384 of these babies died because of premature birth.

The premature baby is very weak and delicate, his body is underdeveloped. Therefore, the body does not function as well as in the full term baby. Because the premature baby is fragile he will need very special care. What special care does the premature baby need? Warm, even heat, immediately following birth. It is necessary to place most of them in incubators to maintain the proper temperature.

Many premature babies cannot breathe the air into which they are born, and must have oxygen. These babies must have the right food, given carefully and at the right time. Premature babies have practically no resistance to infection. Therefore, it is necessary to protect them from exposure to any infection. It is important that persons caring for the premature be free from colds, sore throats, etc. The premature baby needs rest and quiet, and should be handled only when necessary care is being given.

All this adds up to the need for the best possible medical and nursing care, preferably in a hospital where the special facilities, mentioned above, are available. Many hospitals have purchased incubators for local use. The State Department of Health has distributed incubators to every county in the state. Several organizations have sponsored projects for the purchase of incubators for their local hospitals. This is indeed a worthwhile and commendable project.
