More "go" ... for your dough!
When you come right down to it, what you want from a premium motor oil is ... the best possible protection and the least added oil from the time you fill till the time you drain.
Conoco Nth Motor Oil (Patented) gives you more for your money because (1) when Nth Oil enters your motor, it OIL-PLATES every working part with an extra film of lubricant and (2) this extra OIL-PLATING actually stays up on cylinder walls ... won't all drain down, even overnight!
That means you're extra-protected against power-clogging sludge and carbon due to wear ... extra-protected against metal-eating combustion acids ... extra-protected against destructive friction.
So, to keep your power ... to get more "go" for your dough ...
Make a date to OIL-PLATE!
