Slaughter little Monday at Omaha ranged all the way from \$20.00 to \$39.50, quotable peak \$40.00 or better. Hogs, meanwhile, got scarcer and higher. Up 50c to \$2.00 last week, they were another 25c-\$1.00 higher Monday, butchers \$21.00-\$31.00, sows \$24.00-\$28.50. Butcher top of \$31.00 was highest since the record \$32.00 of last September. Fat lambs Monday were steady, native springers to \$28.25, choice Westerns quotable to Friday's peak of \$28.50. **With Smaller Places Hardest Hit Hotel Business Off, Survey Shows**

CHICAGO (U.P.)—Hotel business in the United States has dropped perceptibly during the past year, according to a United Press survey.  
Hotel managers in the nation's tourist centers reported the largest decline in business, with occupancy falling off as much as 15 per cent in California and more than six per cent in New York City.  
Business is slower than it was in 1947 in the Pacific northwest, but hotel managers said much of the drop was due to the disastrous floods in June. Hotels in Texas said that business was slower there because of unusually hot weather.  
Philadelphia hotel managers, buoyed by three national political conventions and other national conventions, reported that occupancy was much higher than last year. Wisconsin, which is holding its centennial celebration, has had nearly 100 per cent occupancy in many hotels.  
Week End Trade Off  
Nearly all managers reported that week-end trade had fallen off from the high rate established during and immediately after the war, but that the decrease had been expected.  
Commercial travelers from the backbone of the hotel trade and nearly all hotels in the 35 cities surveyed reported that during the early part of the week, when traveling men do most of their business, occupancy is almost as high as it ever was.

**Death of Former Resident of Plattsmouth**

Saturday word was received by Mrs. Frank L. Cummins of this city, of the death in New York City, of an old friend and a former resident of Plattsmouth, Mrs. Anna Coleman Brown, a daughter of the late Mr. and Mrs. John C. Coleman, residents of this city for many years.  
The Coleman family were prominent here for a great many years and left here some forty years ago, first to Idaho, later to New York City. The parents passed away years ago and Mr. and Mrs. Brown made their home in the east where they were owners and operators of a chain of restaurants which Mrs. Brown has operated since the time of death of her husband.  
Mr. Brown will be recalled here as the owner and operator of a drug store where the Schreiner drug is now located and operated it until the family moved to the west.  
The death of Mrs. Brown leaves but one of the Coleman family, Arch Coleman alive, who resides at Los Angeles. She leaves as her survivors a daughter and one grandchild.

**Veterans Day At State Fair Announced**

Plans for a "more eventful, more colorful, more enjoyable Veterans' Day than ever before" at the annual Nebraska State Fair, September 5, were announced this week at Lincoln by Nathan Grossman, general chairman of Veterans' Day.  
With free entertainment for parade participants, a huge "family picnic" and more than 500 posts and auxiliary units of veteran organizations in Nebraska taking part, the day's activities are expected to break a record in total attendance, declared Grossman.  
"We already have over 25 bands and drum corps units scheduled," he stated.  
Veterans and their families from all over the state will begin gathering at the State Fair picnic grounds at 10:00 a.m. The picnic will be held at 12:00 noon. Families are urged to bring their own lunch baskets if possible, although food will be available on the grounds.  
Grossman explained that the parade units will assemble outside the Grand Stand building at 12:45 p.m., and the parade will start moving promptly at 1:30 p.m.  
"The parade will be in front of the Grandstand audience and it will be a short line of march," emphasized Grossman as he invited all ex-servicemen— young and old alike—to take part in the Veterans' Day parade.  
As a show of appreciation to those taking part in the parade, the committee has arranged for excellent front section seats for the entire group in the grandstand. An afternoon entertainment show will then be the feature of the day.  
Greetings will be given to the veterans and their families, by Governor Val Peterson, and other officials. They are: Guy N. Henninger, Adjutant General, Nebraska; Edwin Schultz, Secretary of the Fair Board; Department Commanders of the American Legion, Veterans of Foreign Wars, Spanish American War Veterans, Marine Corps League, AmVets, and DAV.  
Also to be introduced are: Dr. Harry Scott, VA Hospital manager; Ashley Westmoreland, regional VA chief; and Nate Grossman, general chairman.

**Missouri Basin To Need More Funds in '49**

Army engineers' and the reclamation bureau may have to ask congress for as much as \$275,000,000 next year to keep Missouri basin development programs going at their projected six-year pace.  
Flood control and reclamation appropriations for the area in the 1948-49 fiscal year total \$137,950,150 — \$83,163,500 for flood control and \$54,786,650 for reclamation—or about 17 percent of the national total of \$818,000,000.  
In a recent report by the interior Missouri basin field committee, government officials suggested that unless appropriations for the basin next year are "more than double" this year's outlays, the whole plan may prove "much more ambitious than can be realized."  
Should Congress accept the field committee's view, it would be confronted with the choice of either curtailing the basin program or voting for the Missouri region a sum greater than the \$246,000,000 approved in 1947 for general flood control in the entire United States.  
The \$275,000,000 estimated as necessary to keep the Missouri program rolling is, furthermore, almost three-fourths the national total voted in 1947 for general flood control and reclamation combined.  
Some congressional leaders say they fear driving the total too high. Resistance to big flood control projects showed signs of stiffening this year among members from states not directly benefitting from the developments.

**More Than One Way To Bag A Coyote**

BISON, S. D. (U.P.)—You don't need a gun to get a coyote. Just run him down and then lasso the critter. That's the report of Gail Coe and Elmer Bekken.  
While flying in Coe's light plane, they spotted a coyote. They had no gun.  
Flying low, they herded the coyote onto a plowed field. Attempts to hit the animal with the tail wheel were partially successful.  
When the tired coyote took refuge in a fence corner under some weeds, they landed the plane near by. Then they lassoed the coyote with the plane's tie-down rope and killed it with a fence post.
