See Nebraska on Parade
State Fair Sept. 5-10

It's State Fair time again—time when all good Cornhuskers watch with pride as their state goes on parade. Tremendous inspiration comes to everyone in viewing the state's mighty panorama of accomplishments in many fields—agricultural, industrial, educational and others.

Not the least of Nebraska's accomplishments is in the field of brewing industry self-regulation, a program designed to help prevent abuses connected with the handling of beer. Through this program the brewing industry works for ever higher standards in the distribution of its product. Beer retailers are instructed and encouraged to observe every regulatory statute, particularly those prohibiting sales to minors and intoxicated persons, and sales after hours... the maintenance of clean, neat, sanitary places... and the elimination of any conduct which might be displeasing or irritating to the public.

Ten years of this program has helped build in Nebraska one of the brewing industry's most valued assets—a good name.
