## We'd like to demonstrate this tractor on your farm

We'll bring a Ford Tractor out to your place, without any obligation. And with it, one or two of those good Dornborn Implements, specially made for the Ford Tractor. We'll put this Ford Tractor through its paces, then let you take the wheel.

You'll find out how easily Ford Hydraulic Touch Control lifts and lowers implements and controls their depth. You can hold your watch while we demonstrate Triple-Quick Attaching of implements. You can get the feel of the easy Ford steering and positive brakes.

Then you'll know why Ford production . . . over 400 tractors a day . . . still can't keep up with demand. See this great Ford! Whatever tractor you own, you owe yourself this Ford Tractor demonstration. When can we make it?

## First "call" for fall!

Don't fiddle around any longer with dirty old summer motor oil. Swing your car into the nearest Conoco station and change to winter-grade N<sup>th</sup> Motor Oil. Lighter winter-grade N<sup>th</sup> gives you faster starts. Saves you wear on the battery when you step on the starter.

What's more, a change to Conoco N<sup>th</sup> Motor Oil gives you the extra protec-

tion of OIL-PLATING. For N<sup>th</sup> contains a special, added ingredient that actually OIL-PLATES your engine's working parts . . . fastens an extra film of lubricant to cylinder walls . . . protects you from "dry" friction starts . . . from sludge and carbon due to wear.

So for better winter driving, call on your Conoco Mileage Merchant . . .
