### Magician to Show at High School

Like music magicians are classified into two types; the long haired variety and the modern or popular kind. Roy Mayer is definitely not the long haired type.

Mr. Mayer, who is to appear at Plattsmouth high school Friday, October 15, 1948 at 1:00 p. m. is an accomplished magician, known in magic circles for 25 years as an authority on modern magic. He brings to his audience new magic and smart comedy. His presentation of mystery after mystery holds the audience spell-bound and his refreshing style of hokus-pokus is unsurpassed.

The production of "Oranges from Nowhere"—"The Touch of King Midas"—"The Elusive Spheres"—"The Adventure of Robin Hood" are gems of prestidigitation. Mr. Mayer has a personality all his own. His programs are unique, novel, wholesome, full of life and action.

Mr. Mayer became a member of the Society of American Magicians in the year 1925 and is a past president of the St. Louis Assembly of that organization. He taught magic, giving lessons to students in all walks of life.

and bring with him a wealth of platform experience, including stage, schools and television. Perfect stage technique, poised gracefulness, coordination of movement, and clock like precision, all blend into a picture that is delightful to the eye and one long to be remembered.

It was never intended that the county play the role of landlord. I therefore favor selling that portion of the farm which is no longer used for relief and welfare work.

That the proceeds be used for the purchase of rock crushing equipment and surface our farm-to-market roads.

If elected, I pledge strict observance of the intent of the Schroeder mail road law.
