### Historical Group Hears of Street Railway Lines

The meeting of the Cass County Historical society, held Wednesday noon at the main dining room of the Rainey cafe, was enjoyed by a pleasing group of the residents of the community to hear a most interesting story on "Early Street Railway Systems of Plattsmouth."

The meeting was presided over by Dr. G. H. Gilmore, of Murray, president of the Cass county society.

Everyone present felt very appreciative of the fact that T. H. Pollock, a resident of Plattsmouth from his young childhood, was the main speaker and related many interesting stories of the period from the middle eighties to the early nineties. It was in this period that the street cars came to Plattsmouth, first the horse drawn cars, then later the electric street cars. This city had one of the first electric lines in Nebraska that served for years the community as a means of transportation.

The power house, a large two story brick building, stood on Oak street two blocks east of the present Oak Hill cemetery, where the car barns as well as the power plant being located. The lines ran east along Oak street with a line that carried over to north Sixth street, thence to Main street. It was an uncertain line as the old time papers relate, and out of commission a great deal of the time.

At that time there was a great boom in the west part of the city and O. H. Ballou, of Omaha, had laid out a section of the city where many new houses were built, and bid fair to be a rival for the main part of the city. Dr. Mercer of Omaha was also interested, that

section of the town was known for many years as Mercerville.

In this same period of time, the main part of the city along Main and Sixth streets were being paved, with the heavy granite block, and the city sewer system in the business part of town was getting under way.

There were many in the audience that recalled having ridden on the street cars in their youth and to these the story of Mr. Pollock was most graphic as he talked over the old times.

### Plattsmouth Library News

Every parent realizes the importance of good reading for young minds. Good books can influence character, direct interests, and even mould careers. Your Plattsmouth public library shares with you the responsibility of making good books available to your children. Help your Plattsmouth public library celebrate Children's Book Week, November 14th through 20th, by urging your boys and girls to visit the library this week—and every week!

In a tradition as old as the United States, Supreme Court justices have always played paramount roles in the enrichment of American democracy with a flavor of liberalism—a sort of democratic faith toward which the free nations of the world have so earnestly turned. The contemporary supreme court purveyor of liberal American idealism is Justice William O. Jackson, who took his seat in the Supreme Court in 1939. And in his book, "Being an American," which is an addition to the Plattsmouth library shelves, any American in doubt about his heritage of freedom, equality and justice can clearly see what inroads great liberal leaders of our century have made.

Justice Jackson's book is a compilation of his speeches made during the past several years. His range is wide, his topics varied, but the theme throughout is the same—a rugged, democratic faith. The book is written with rich simplicity and is not clogged with the overworked platitudes of the overzealous "flag-waver." Jackson is sincere in painting a portrait of America's liberal magnitudes, its democratic tradition and the men of recent times who dedicated their lives simply to "being an American."

The much talked-about book, "The Cleft Rock," by Alice Thadde Hobart, has also been added to the library. It is a novel, deeply experienced, deeply felt and vividly presented by the author, and concerns the Dodd family of California. The book presents four overlapping generations of Dodds, with their husbands and wives, between 1920 and the present.

For lovers of historical fiction, "Song Before Sunrise," by Jonreed Lauritzen, offers a vivid flashback to the days of the pristine West in a novel which contains both delicacy and vigor.

### SMALL GRASS FIRE

The fire department was called out Wednesday afternoon by a grass and weed fire on the south part of the lot at the home of Harry White, 10th and Main street. The fire had alarmed the residents in that section but was soon put out without loss to the property.
