### Residents of County Purchase Savings Bonds

Residents of Cass county purchased \$92,908.25 in U. S. Savings bonds during the month of October, it was announced today by Walter H. Smith, chairman for the county.

At the same time, Leland R. Hall, State Director for the U. S. Savings Bond Division, announced the total sales in Nebraska were \$7,880,640.83. Series "E" bond sales were \$5,496,923.83 or approximately 70% of total sales.

"October sales showed an increase of \$614,000.00 over September, and September sales an increase of almost half a million over August," Hall stated, "an indication that bond sales reached a low point for the year during the month of August and are now on the upswing."

"This increase in the sale of Savings Bonds shows the continued faith that Nebraskans have in them as the safest investment in the world today," Hall added. "The tremendous reserve of Savings Bonds held by the people of this state enables Nebraskans to look to the future with confidence and a feeling of security."

"Redemptions amounting to \$3,006,196.54 reported for the month of October reached a new low for the year," Hall said.

## Why a Horse in a Lumber Ad?

Because everybody, including you, likes horses. And we want you to read this ad.

**HORSES HAVE HORSE SENSE**  
The more unsettled the national and international pictures become, the more you hope and pray our leaders will have just good old "horse sense." And some days it seems as if the only ones who have it are the horses!

**HORSE SENSE IS GOOD SENSE**  
There's no point in losing faith in your own horse sense, however. The more you exercise it, the sharper it becomes. And one way of exercising it is by trading with people you know... people you know will be here for years, and years to come.

**GOOD SENSE IS NOT EXPENSIVE**  
When you build you know it's good sense to build for permanence. That's the way we've been building our business for 30 years, and that's why we urge you to use the best that is available.

**IT PAYS TO BUY FROM PEOPLE YOU KNOW**  
That's why you don't have to make a complete study of the building supply trade to buy wisely, for your construction or remodeling. You can rely on our years of experience and our plan for permanence to assure you of "value received."
