East Nebraska District Seeks \$1,328,000 Fund

At the regular meeting of the board of directors of the Eastern Nebraska Public Power district held in Syracuse on November 8, 1948, approval was given to a consolidated request for a loan from AEA totaling \$1,815,000. The request, which includes three applications previously submitted during the past year totaling \$1,328,000, actually provides for only \$487,000 of additional funds.

According to H. D. Miller, secretary and general manager of the district, the consolidated application requests funds to serve approximately 1400 farms of which 300 had not previously been included. The application also includes a request for loan funds to build 25 miles of 69,000 volt transmission lines, two new substations, doubling of capacity of an existing substation, a warehouse in Syracuse and other miscellaneous items.

Because of the urgency of the situation Mr. Miller will go to Washington next week to endeavor to expedite approval of the request. Organizing of the 1949 construction program is entirely dependent on securing this allotment and nothing can be done until the loan funds are assured.

Included in the combined application is a request for allotment of \$610,000 sent in October, 1947, another for 650,000 submitted April 28, 1948 and a third for \$68,000 dated May 29, 1948. The lines to be built with these funds are distributed over the seven counties comprising the District and include funds to serve all farms for which applications for service were on file by October 1, 1948. The Eastern Nebraska Public Power district includes Richardson, Pawnee, Nemaha, Johnson, Otter, Cass and Saunders counties.

GULLS PRACTICE FIRST
GLOUCESTER, Mass. (UP)—The sea gulls at Pigeon Cove have a practice pool for their young. In one of the large granite quarries is a deposit of water, much like an artificial pond. There the gulls make their nests and teach their young to swim and fly before taking them to sea.

MISSIVES MIXED
MEMPHIS, Tenn. (UP)—When Mrs. Basil Hall's daughter received a corsage she found on one side of the card, "I love you," and the man's name. Either the sender or the florist picked up the wrong card, for on the other side was written, "with sympathy, veterans class."

Thanks...

In Thanksgiving

Lord God, we give Thee thanks this day,
Humbly, in our faltering way—
Not with the graceful wordy arts,
But simply, deeply, with our hearts—
As little children mindful of
A Father's broad and boundless love.

We thank Thee, Lord, for everything—
The shining miracle of Spring,
Green grass, and cool and kindly rains,
Stars and soft clouds in silken skeins,
For tall trees, patient and precise,
That point the way to Paradise.

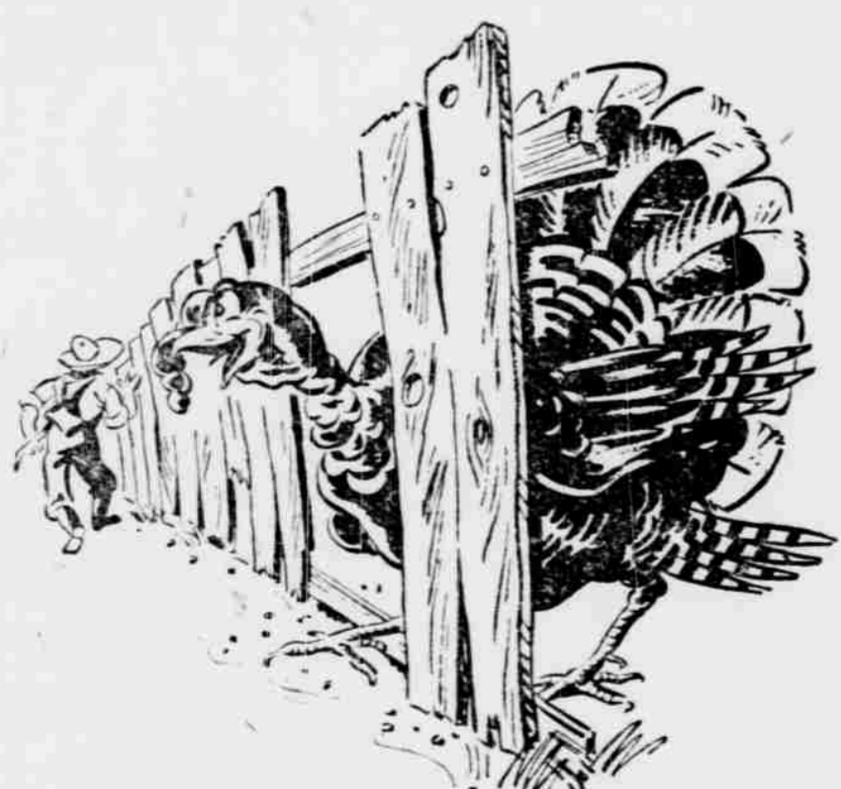

We give Thee thanks for life's reach years,
For courage, and for cleansing tears,
For faith that builds us tall and strong,
For laughter, and a gift of song—
And most of all—that we are free
To bring our grateful hearts to Thee.

Dear Lord we give Thee thanks for youth,
For trust and tenderness and truth,
For brotherhood—that we may tread
A peaceful earth, and break the bread
Of friendship with our fellow men;
We give Thee thanks for love.

AMEN.

THE ONE DAY AMERICA GETS THE BIRD

And what a bird. The traditional turkey comes into its own on Thanksgiving on your dining room table. So let's not talk today about early Xmas shopping, or bringing in your tractor early for that overhaul. Instead, let us give thanks that we in our land of plenty are able to send food to our neighbors over seas, not so fortunate as we.
