### Hubert Babbitt Home from Auction School

Hubert Babbitt has returned from Mason City, Iowa, where he has been for the past few weeks attending the Reich American School of Auctioneering, known as the world's largest auctioneering school. Joe Rice is the head of the school and the students are given a very thorough course of instruction in this line of work. J. E. Halsey of Des Moines, Iowa, and Bert Powell, fieldmen for Capper's Weekly of Topeka, Kansas, were among those who assisted in the work of the school.

To show the wide reputation of the school there were 124 students taking the courses at the time Hubert was attending, representing twenty-six states and one from the Dominion of Canada.

The students received instruction in farm sales, real estate and merchandise sale handling, as well as a thorough handling of this line of work.

Mr. Babbitt is planning on going into the auction business as he has been greatly interested in this line since his return from service. The many friends will be pleased to learn that he will follow this line of activity in the future.

### Plattsmouth Library News

The Yule season can be no more in evidence than at the Plattsmouth Public Library nowadays.

There has been an unusually large demand for books and stories of Christmas, and the library has tried diligently to fulfill as many requests as possible.

A Christmas tree, replete with many lights and colorful trimmings, has been placed in the children's wing of the library. The tree is also visible from the outside.

Mrs. Etta Gorder has donated two books to the library. One is an authority of Christmas stories entitled, "Santa's Footprints and Other Christmas Stories." The other volume is the recently published novel by Carl Sandburg, "Remembrance Rock."

The library will, of course, observe the coming holidays.

The first bicycle was built by Ernest Michaux, a French locksmith in 1855.
