

By REV. ROBERT H. HARPER
The Boyhood and Youth of Jesus.
Lesson for January 16: Luke 2:
39-43, 46-52; Mark 6:3ab.

Memory Selection: Luke 2:40.
What we know of the childhood
and youth of Jesus is meager, but it
points to a godly home, careful
training, and the fine response of
Jesus.

At the age of 12, found in the
midst of the teachers in the temple,
amazing all who heard him with "his
understanding and his answers,"
telling his mother that he must be
about his Father's business, return-
ing to Nazareth to be subject unto
Joseph and Mary, and advancing in
"wisdom and stature, and in favor
with God and men"—these facts
comprise all we know with certainty
concerning the childhood
and youth of Him who was destined
to become the Saviour of the world.

But these facts are enough to
show that the home of Jesus was
a godly one. It should be a model
to all parents. We learn that
Jesus was a carpenter. He thus
dignified labor.

No one can read of the childhood
of Jesus and imagine all the influ-
ences that were brought to bear on
the boy without realizing the value
of a godly home.

Dedicated to God in infancy,
trained in all the lore and learn-
ing of his people, as appears in
his later years, attending regular-
ly at the synagogue, and going
every year to the passover, Jesus
was prepared on the human side
for the blessed ministry
that awaited him.

Fathers, mothers, attend well the
lesson of the home in Nazareth, and
prayerfully undertake to bring your
children up in "the nurture and ad-
monition of the Lord."

OUR CHURCHES

CHRISTIAN SCIENCE SOCIETY
Sixth Street & 2nd Avenue
"Life" is the subject of the
Lesson-Sermon which will be
read in Christian Science
Churches throughout the world
on Sunday, January 16, 1949.
The Golden Text is: "Labour
not for the meat which perisheth,
but for that which endureth unto
everlasting life, which the Son of
man shall give unto you" (John 6:27).
Other Bible citations include, "And
this is life eternal, that they

might know thee the only true
God, and Jesus Christ, whom
thou hast sent" (John 17:3).

The Lesson-Sermon also in-
cludes the following passage
from the Christian Science text-
book, "Science and Health with
Key to the Scriptures" by Mary
Baker Eddy: "This is life eter-
nal," says Jesus,—is, not shall
be; and then he defines ever-
lasting life as a present know-
ledge of his Father and of him-
self,—the knowledge of Love,
Truth, and Life. "This is life
eternal, that they might know
Thee, the only true God, and
Jesus Christ, whom Thou hast
sent." The Scriptures say, "Man
shall not live by bread alone,
but by every word that proceedeth
out of the mouth of
God," showing that Truth is
the actual life of man; but
mankind objects to making this
teaching practical" (p. 410).

ITS VISIBILITY WAS PROVED HERE

WHEN you see the 1949 Chevrolets, a glance will be enough to tell you they're new—all new—in line and contour, in beauty and style. And when you look inside, and under the hood, and beneath the chassis, you'll see that their newness is not merely in outward appearance, but in design and engineering and construction as well.

But, to a lot of people, the 1949 Chevrolet is already old. They know what it will do, and how exceedingly well it will do—they know all about its performance, its comfort, its power, safety, durability and economy. They are the engineers and technicians of the General Motors Proving Ground—the largest, most completely equipped, outdoor testing laboratory in the automobile world.

Here, before a single new 1949 Chevrolet went into production, experimental models were tested—made to show that they possess, in greater measure than ever, all those qualities on which Chevrolet has built its leadership.

In short, the General Motors Proving Ground tests are your assurance that your new-model Chevrolet has proved its worth through many months and many, many thousands of miles of rough handling.

Soon you will see the new Chevrolet—and when you do, you will see a car not only new, but tried and true.
