**Maintaining High Tavern Standards by Education**  
By Connie Osburn

Encouraging the maintenance of good conditions in places where beer is sold is the chief aim of the brewing industry and the Nebraska Division, U. S. Brewers Foundation.

Since the best informed tavern owners are generally those who best conduct their places in the public interest, our dealers educational program for 1949 will be continued through the year in an effort to make it still more effective.

In addition to personal educational work by trained fieldmen, helpful posters are provided in an effort to secure the cooperation of patrons whose age or conduct might be involved.

As a result of years of constant education, Nebraska tavern owners have improved conditions in their places and, with continued help, these conditions will be improved even more.
