

Home Accidents to Take Heavy Toll in State

Unless Nebraskans are more careful than their fellow-Americans they will have some 45,000 home accidents during 1949. This figure is based on country-wide statistics from the National Safety Council showing that on in 28 persons is injured at home in the course of a year. Many of the most dangerous home mishaps, those taking place in the kitchen, could be eliminated if home owners gave more attention to the planning and layout of that room, points out a Title Council of America report.

Proper placing of cupboards and shelves will do much to improve both safety and work conditions in the kitchen, it says. Since few homemakers can

easily reach a shelf more than six feet above the floor, that height is generally recommended. If shelves are higher, safety precautions call for storing the stepladder in the kitchen itself rather than the basement, so that it will be handy for use instead of makeshift climbing supports.

Many kitchen accidents originate at the range. For safety it is best located away from traffic, so that vessels on it will not be accidentally hit in passing. A panel back of it finished with clay tile reduces fire hazards and is easily kept clean and free of grease.

Fatigue is the direct cause of many kitchen accidents. Work surfaces at proper heights, walls finished with such easily cleaned materials as clay tile, and labor-saving equipment lighten work and therefore definitely contribute to safety, according to the report.

Inadequate lighting can make even routine activities in the kitchen dangerous. A central light fixture is seldom enough, and the report recommends that extra light sources be devised for all work areas.

George Vogler Pays Short Visit Saturday

Saturday George Vogler, Jr., who resides in the South Bend community, was in Plattsmouth for a few hours. He moved to this city and to her new home. Mr. Murray was killed some time ago in the fall of a tree and the wife decided to return to her former home in this city.

Mr. Vogler while in Plattsmouth called at the Journal and enrolled as a reader of the paper for the ensuing year. He states the Rock Island railroad has their gang in the South Bend area looking over the Platte river bridge in anticipation of high water in the next few weeks.

KNOW YOUR WEATHER

Most of this country's weather tends to flow from west to east. Thus, if tomorrow's air is lying westward as a mass of wet stuff, the sun will appear yellow or gray. If tomorrow's air is dry, the sun will appear deep red. Hence, the saying: "Yellow sky and setting sun, tomorrow's hay will not be done. But when the sun sets red in west, that's what haymen like the best."

Killowatts Met at Pollard Home

The Kass County Killowatts met at the home of their leader, James Pollard, Tuesday evening, February 22. The President, Edward Snyder, led the club in the Pledge of Allegiance to the flag and the 4-H pledge. First year members are Harold Scharp, Gerald Switzer, Jimmie Baller, Lloyd and Larry Doeden. Second year members are James Pollard, Roland Hogue, Jerry Lutz, and Edward Snyder. The first year lesson was on Splices and Electrical Connections and the following demonstrations were given: Rat Tail Splice, Jimmie Baller; Western Union Splice, Gerald Switzer; Fixture Splice, Lloyd Doeden; Terminal Connection and Tying an Underwriter's Knot, James Pollard. Edward Snyder gave the lesson, Safety with Electricity and Roland Hogue explained Electric Circuits. Jimmie Baller, recreation chairman, led in table games. Lloyd and Larry Doeden were assistant hosts. The next meeting will be March 7 with Edward Snyder assistant host at the Pollard home—Lloyd Doeden, News Reporter.

Off the coast of Dorset, England, is the ancient swannery at Abbotsbury, which for centuries has been the meeting place for thousands of swans. King Canute granted the land in 1023.

City Council Hears of Lights in Downtown

(Continued from Page One) ured on fifty-two post system. Mr. Rea stated he thought that the present posts in use west of Seventh street, be retained as the conduits there were not damaged, also that taller posts would be interfered with by the trees growing along the parkway. He favored four of the lights at 6th and Main street where traffic was heavy and on the main highway.

Mr. Rea also touched on the matter of the widening of Main street which would make necessary in any case the change in the electrolizer system.

City Clerk Albert Olson suggested that parties seeking licenses for the ensuing year get in their applications early so that action could be assured by the opening of the license year.

The council heard some discussion of a subject almost as old as time, that of the garbage disposal in this city, this had been an increasing problem and it was decided to have City Attorney Lebens draw a new ordinance on the matter and the committee of Mayor Rogers and Councilman Arn continue their search for a garbage disposal plot.

The members of the council had a very interesting motion picture shown by Vince Curtiss, representative of the Caterpillar company, showing the work of the machine in removing snow and other street work, that was much enjoyed. Mr. Curtiss is connected with the Lincoln Equipment company, with whom the city has been discussing a new road machine.

CHRISTIAN SCIENCE SOCIETY Sixth Street & 2nd Avenue

"Man" is the subject of the Lesson-Sermon which will be read in Christian Science Churches throughout the world on Sunday, March 6, 1949.

The Golden Text is: Behold, what manner of love the Father hath bestowed upon us, that we should be called the sons of God" (1 John 3:1). Other Bible citations include, "Ye are my witnesses, saith the Lord, and my servant whom I have chosen, that ye may know and believe me, and understand that I am he: before me there was no God formed, neither shall there be after me" (Isaiah 43:10).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, "Man is not matter; he is not made up of brain, blood, bones, and other material elements. The Scriptures inform us that man is made in the image and likeness of God. Matter is not that likeness. The likeness of Spirit cannot be so unlike Spirit" (page 475).

Charlene Spangler to Be June Bride

The Sunday World-Herald carries an announcement which is of interest to many Cass county friends of the Everett Spangler family, who were former citizens of the Murray vicinity, but now of Omaha. They are announcing the engagement of their daughter, Miss Charlene Spangler and William Cummings of Perry, Iowa, both of whom are members of the senior class at Iowa State college at Ames. Miss Spangler is a member of Motor Board and Cardinal Guild. She has served as advisory chief for the dormitory council this year and is also vice president of the college Y. W. C. A.

Mr. Cummings is the son of Dr. and Mrs. W. P. Cummings of Perry, Iowa. He is majoring in Chemical Engineering at Iowa State college, and belongs to Phi Kappa Tau.

The marriage will occur in June.

0 STREET HOMEMAKERS

The O Street Homemakers club met at the home of Mrs. Clarence Westlake, February 18th. Mrs. Clark Gonzales and Mrs. Harry Snoke gave the second part of the lesson on "Insurance" a lesson on life insurance. Mrs. Everett Avers was a welcome guest. The hostess served a delicious lunch. The next meeting will be at the home of Mrs. Harry Snoke on March 25th.

The O Street Homemakers club entertained their husbands February 25th with a covered dish dinner and card party at the home of Mr. and Mrs. Clark Gonzales—Club News Reporter.

All Good Things Must Come to an End
So-o-o-o

Soennichsen's BARGAIN ATTIC SALE

WILL END AT 9:00 P. M. SHARP ON SATURDAY NIGHT, MARCH 5TH

Everything Must Go—Everything Will Go

Still a large quantity of goods to be sold — Prices still being reduced

Don't wait too long. Stocks are running lower every day. If we run out of merchandise before 9:00 P. M. we will be forced to close our loft earlier in the day — So don't arrive too late for too little.

We have found some raincoats that we had forgotten about. To simplify the sale, we put these in 3 fast selling groups.

1.00 2.99 3.99

Thank you folks for lending a hand in making this gigantic stock reducing sale a success.
