Bigger 3 Ways... DODGE gives you extra value

WIDER on the inside... NARROWER outside! There's extra value in the spread-out elbow room of the wide, wide seats. Yet the new Dodge is smaller on the outside... easy to park, easy to garage, easy to thread through crowded traffic.

LONGER on the inside... SHORTER outside! The new leg room in Dodge gives extra value in stretch-out comfort. Doors open wide, too... let you get in and out easily without squirming or twisting—and without knocking your hat off, either.

HIGHER on the inside... LOWER outside! More head room is another Dodge extra value you'll appreciate. Instead of low, slanting seats that force a cramped position, Dodge knee-level seats are actually higher for relaxing comfort, better vision.

If you want extra value, you'll want DODGE! There's extra value in Dodge beauty that flows from true functional styling... in the design that provides more head room, more leg room, more elbow room, greater vision for all passengers. There's extra value in Dodge's Get-Away engine with its surging acceleration... its higher compression for greater gas economy... the smoothness of Dodge All-Fluid Drive at no extra cost. Yes, you'll want Dodge for the extra value you get all the way from double-life hydraulic brakes and Safety-Rim Wheels to the luxurious comfort of full-cradled ride and knee-level seats. Add to these the Dodge reputation for dependability and economy and you'll discover why wise buyers say... "For extra value, it's Dodge."
