Immanuel Church To Observe 75th Anniversary

(Continued From Page One)
and Mrs. Frederich Voigtmann serving as such. During the other years of the congregation's existence, until 1922, the pastors of the congregation taught in the school.

When Pastor Jung accepted a call to Taylor, Texas, the congregation in 1907 was successful in having Pastor Th. Hartmann accept their call. He served as pastor of the congregation for 31 years, when he was forced to resign because of illness in 1938. He died two months after his resignation, June 30, 1938. During his ministry the congregation added a new two-manual pipe organ to their church, redecorated the church and parsonage several times, and increased in membership.

As their next pastor, the members called the Rev. Cattau of Omaha, who served here to the end of 1946. During his term the congregation erected a new parsonage for the pastor. They made plans to celebrate their 75th anniversary by deciding to rebuild their church. However, these plans did not materialize in time to hold these special services in 1948, so that the anniversary is really being observed one year later.

After a vacancy of six months, the present pastor, the Rev. Melvin H. Meyer, accepted the call and became pastor here the first Sunday in July, 1947. It became his task together with the interest and support of all members of the congregation to assist in the rebuilding of the church and to see the day of celebrations finally become a reality. On Sunday, Sept. 11, pastor, congregation, friends, and neighbors will, God willing, hold these special services.

Legion Auxiliary Holds Meeting

The regular August meeting of the American Legion Auxiliary was held at the club house on Thursday, August 25th, with a very pleasing attendance of the members present.

Mrs. Sophia Wolever gave an interesting report of the State Convention at Omaha, giving the highlights of the meeting and the various resolutions and rulings adopted by the meeting. The members of the Auxiliary were asked to volunteer for services as clerks to assist in the filling out of insurance dividend blanks for the war veterans. Those volunteering for the work were Mrs. Beatrice Brothers, Vera Lewis, Mrs. Janet Selavick, Mrs. Sophia Wolever and Mrs. Kenneth Dunlap.

Corn Pickers Are Great Money Savers

Although the United States produces more than half the world's corn crop, about 50 percent of the crop still is harvested by means as primitive as the ancient native plant itself. Corn is the leading field crop in the U. S., having more than

500 uses from feed to face powder to dynamite, but only recently have mechanical means been perfected so that corn can be harvested cheaply and efficiently.

These facts were made known by the Plattsmouth Motors Farm Store, Ford Tractor and Dearborn Farm Equipment dealer on Washington avenue.

One man with a team, Plattsmouth Motors Farm Store pointed out, can harvest and crib about 80 bushels of corn in a day, but one man with a one-burn corn picker and a man to haul corn can easily harvest 400 to 600 bushels of 90 bushel corn per day.

Corn harvesting machinery is not new, they said. The first machine was in operation in 1850, and the snapping roll was invented in 1874. But because of technical difficulties corn pickers did not go into general use until 1930-1940.
