WHAT IS TORTOISE SHELL MADE FROM?

The VERY NAME "PANTHER" STRIKES A NOTE OF FEAR IN THE MIND OF MOST PEOPLE, YET THERE ARE LESS THAN ONE DOZEN AUTHENTIC RECORDS KNOWN WHERE THE PANTHER, OR MOUNTAIN LION, ATTACKED HUMANS!

NORTH EAST IS IN THE NORTHWEST CORNER OF PENNSYLVANIA.

Thanks

ANSWER: Made from the Hawksbill marine turtle, not from a tortoise.

Laff of the Week

"It Was A Great Fight—And I'm Glad I Won The Toss . . ."

It's a \$2,064 pot, mister!

With new-car prices averaging about \$2,064, you're battling Old Man Wear for a rich pot in that new automobile of yours!

And wear is especially hard to beat in winter. To win back your stake, you'll need an unbeatable hand . . .

You'll need OIL-PLATING!

2. Magical Performance! Even when the fine lubricating oil itself isn't covering a part, OIL-PLATING is! It protects your engine from grinding "dry-friction" starts . . . from combustion acids . . . from sludge and carbon caused by wear.

3. Winter's A Killer! These wear-makers, at their worst in winter, threaten your car now. New and older cars both urgently need Conoco Nth. Don't wait . . . drive yours in today and armor it against winter with Conoco Nth!

1. Oil-Plating—a feature of patented Conoco Nth Motor Oil—performs a wear-preventing miracle by fastening a shield of special lubricant to working parts. OIL-PLATING can't all drain down—even overnight!
