Skating Pond Popular Spot For Children

One of the popular spots for the youngsters of the community in the past few weeks, is the skating pond that has been arranged on the land owned by T. H. Pollock on Chicago avenue. This is part of the tract of land that was tendered by Mr. Pollock to the city of Plattsmouth, as a site for the new city auditorium, when it is erected and in the meantime is being diverted for the entertainment of the kids of the city.

The members of the Plattsmouth fire department flooded the land and have it in the best of shape for those who enjoy a safe and pleasant place ice skating, and it has been largely patronized.

In past years the ice skating season has been a time of dread for the parents, especially in earlier years, as the boys and girls that were fortunate in having skates, made it a practice of sneaking off to the old Missouri river in the winter season to enjoy their skating. In a number of cases there were many of the then youngsters who ventured on to the light ice and had a duck in the old Muddy, but fortunately there were few fatalities.
