

Pawnee Crew Bests Blue Devils 49-42

Monday evening the Platts-mouth Blue Devils journeyed to Pawnee City to meet the strong quintet of that city, one of the leaders in the southeast conference, with the result that the locals, despite a great last quarter rally, lost 49 to 42.

The first quarter of the game was a seven alike tie. In the Platts-mouth scoring Dasher had a field goal, Bill McCormick two and Dan Rohan a free toss. For the Pawnees Eckman and Jensen had a field goal each, while free tosses were scored by Eckman, Jensen and Bennett.

In the second stanza of the game the Pawnees started to gain and piled up a margin of 23 to 15 at the half time. Dasher, Janeczek and Ashbaugh each gathered in a field goal and Charley also annexed two free tosses. The Indians had field goals by Clark, Cash, Bohmer and Bennett with Eckman and Jensen each having two baskets from the court.

The third quarter saw both teams adding to their tempo as the clock ticked toward the close of the game. For the Pawnees, Eckman continued his attack on the

basket with three field goals, Howard one and Bennett two field goals and two field shots. The score at the close of the third period was Pawnee 37, Platts-mouth 29.

City Council Votes to Vacate Part of Street

ville road. This particular part of Holdrege street has not been opened, the roadway being to the south of the platted road, and had been in use for many years. It was petitioned by Maynard Tritsch that he be allowed to secure 33 feet of the platted highway to be used for the building of a permanent building for his machinery shed and sales room. Mr. Tritsch agreed that if he was given the use of this strip of road, he had the option of buying part of the property to the north, here he would erect a permanent building to cost not less than \$6,000, clean up and rock the driveway and yard of the place, as well as removing his machine yard to the rear of the property, greatly improving the looks of that part of the city. It was voted to vacate the 33 feet that would still leave the present street undisturbed, Mr. Tritsch to make the improvements that he had promised.

Douglas McKnight, engineer from Lincoln, was present and discussed with the council the matter of repairs on the city sewer that is located under the alley south of Main street, a circular brick sewer that is in need of extensive repair. Mr. McKnight stated that federal funds could be available for the work. The condition of the sewer, Mr. McKnight pointed out, was that it was in such shape that a real heavy rain might wreck the sewer and cause much damage, pointing out several places that had used federal funds for this work. The government would allow for the advance engineering fees. The matter was referred to the streets, alleys and bridges committee to investigate the matter.

Mr. McKnight to take pictures of the sewer and the committee to make inspection of the place where replacement was needed.

Mayor Rogers stated that he had one project that he would like to see carried out before he retired from office, that of a stop sign at Sixth and Main streets and Sixth and First avenue. This was taken under consideration to secure estimates of the cost.
