

Louis Naeve Is Remodeling Store

Louis Naeve, operator of the liquor store on North 6th street, is busy getting his place of business back in shape after week of considerable disturbance as he has been remodeling the place.

He has secured the east part of the building in which his place has been located and gained an additional space of some nine feet to add to the

store capacity.

The front of the building used for display and the business section, has had a new floor placed in the building and new floor covering as well as fixtures which will make it most attractive to the patrons.

The rear part of the building will be used for storage purposes by the owner.

The ceiling of the store has been lowered, making it much more attractive.

Cass County Extension Notes

Cherokee and Nemaha Oats: Of the 3 recommended varieties of oats for this area Cherokee and Nemaha did the best job in 1949. Results of two tests in this area, Cherokee and Nemaha out-yielded Clinton by 10 bushels per acre in round figures. Clinton, which has been doing a good job, was hit in 1949 by a rust known as Race 45.

Further information on various oat variety test results, ask for "Outstate Testing Circular 8" at the county extension office.

Glove Making Clinics: As a special project this spring, the home extension club leaders will be given instructions on making gloves. The project leaders will be given instructions to be presented to their own membership. Any club or individual interested in this project, please notify the group chairman or your home agent.

The gloves are made of suede cloth. There are 14 different colors available. The cost of material is reasonable. Those who have made their own gloves find them well fitted and are satisfied with their product.

The first glove clinic will be in Plattsmouth, Thursday, February 16, at the home of Mrs. George Toppliff. Another clinic is scheduled at Eagle, Tuesday, February 21 and at Nehawka or Union, Thursday, February 23.
