### PRAISE THAT IS DESERVED

On another page of The Journal a letter is being published extending a word of thanks and appreciation to the newspaper and the merchants of Plattsmouth for their support of a page advertisement once each month devoted to the churches of this community.

While many of our readers have taken this page for granted, we do not believe anything this newspaper has carried in its columns of this type in years past has been responsible for so much favorable comment or received the praise as has the church page. Hundreds of readers of this newspaper have telephoned and personally extended their words of appreciation for its timeliness.

Although the advertisements are prepared by the staff of The Journal, only through the generosity and thoughtfulness of the sponsoring merchants whose business cards surround the monthly feature is publication possible. Each contributes a small sum each month in order that this church message can be brought before the

If you are one of the many appreciative of this special feature, a word of thanks to the sponsoring merchants is in order. Personally we think it very timely when, at the present time, about half our citizenery is traveling on the road to hell at the speed of a fire wagon.

## LET'S ORGANIZE FUND DRIVES

Many drives for funds for many worthy enterprises have been conducted in Plattsmouth during the past few months. We do not complain of the enterprises or of their worthiness. This factor is not ques-

Boy and Girl Scouts, polio, tuberculosis, Salvation Army, heart disease, and dozens of others, plus several individual cases, all very worthy, but all the reason for a drive for funds. With each individual project, there comes another drive. Those of us who can are glad to give to the support of these causes. The one's who can't wish that they could.

We take this opportunity to compliment the leaders of each and every drive and all the persons who work for these fine causes and every individual who makes a donation. The public spiritedness displayed in these drives marks distinct nobility of character.

However, it might be suggested that measures could be taken to curtail the continuous drain on the pocketbooks of the community. If the assault were made all at once, in a big, concerted effort, it would probably be better. A single, community chest type drive, carried out on a large scale would serve the combined purposes of all of the fund drives.

### \* \* \* GARDENING OFFERS REWARDS

About this time of the year it is well to urge all readers of The Journal to consider the possible pleasure to be obtained from flowers, fruits and vegetables. It is also worth noting that, sometimes, such activity can develop a monetary profit.

We are not much concerned, in this article, with the economic gains of gardening. There are other values that come to the individual who seeks to develop something of beauty and perfection in accordance with the laws of nature.

There are countless homes in Cass county on lots that need the charm that can come only from well-appointed surroundings.
