In the state of Nebraska March 10th to April 20th is the assessing period. The law requires every person, firm, corporation, agent or fiduciary to make out and verify by his oath a statement of all personal property which he owned or controlled on March 10.

Every person over 21 and a resident of this state is required to list his property. The property of a minor shall be listed by the Guardian, parent, or the person having charge of such property. All persons between the ages of 21 and 50 years of age are subject to the \$2.00 head tax and all men between the ages of 21 and 50 are subject to poll tax, except those specifically exempt in the law. All persons under 21 years owning motor vehicles must make a report of same.

If you registered a motor vehicle for 1950, but have sold or permanently removed same from the state before March 10, please notify the County Assessor's office.

All persons living in the rural districts make sure you know the correct school district, section, township and range in which you live. This is very important as all school districts have a different tax levy.

Merchants must have sufficient information to make out the inventory properly before the schedule will be accepted.

If you have made improvements on real estate since 1949, over \$100 in value, please bring the dimensions of same.

If you object to your assessment, it will be necessary to present your protest during the first three days of the Board of Equalization for their consideration. The County Board of Equalization will meet the first Monday in May and continue in session not more than fifty and not less than three days.

The County Assessor and his assistants will be in the different villages on the dates as listed below. If you cannot contact the assessor on these dates then it will be necessary for you to come to the Court House to make your return.
