Commissioner Candidates Old Residents

New candidates entering the race for county commissioner in the second and third district are all long time residents of the territory where they make their home.

Herman Bornemier of Greenwood precinct, is member of one of the old families of that section of Cass county, having grown up in the third district. Mr. Bornemier has had a fine experience in the county government that should fit him well in the office of commissioner. He was elected commissioner in 1946, making a fine record in the office until he was taken ill in 1948, forced to retire from the post. He has in the last months enjoyed very good health and feels equal to resuming the office if selected by the voters. Under his regime the third district was placed in excellent condition.

In the second district, the men recently filing have been residents for many years. Herman Dall, of Manley, one of the democratic candidates has long made his home in the community where he is now living. He was for some years engaged in farming near Louisville, later going to Manley, where he has been active in the community life. He has taken a great deal of interest in the government, has a very valuable understanding of the affairs of the county. He has for many years been engaged in the operating of his blacksmith shop that has given him a wide acquaintance with the residents of that portion of the county.

Frank Ross, of Louisville, the other new democratic candidate for the commissionership in the third district, comes of one of the well known families of that part of Cass county. He was for many years engaged in farming and also was the operator of the toll bridge over the Platte river at Louisville for a number of years. Since that time he has had a great deal of interest in road and highway work. He has been engaged as an inspector on sand and gravel giving him a very fine understanding of the needs of road-building and construction.

STORE CLOSED 4TH

Our store will be closed Tuesday, July 4th. With world conditions in such a turmoil, our Independence Day this year should mean a great deal to each of us. It should be our resolve to treasure this independence more than ever before because in our world today we have organized forces who would relieve us of this treasured freedom.
