Farm Loans Total Over 22 Million

More than 3,000 farm ownership loans have been insured by the Farmers Home Administration throughout the United States so far, it was recently reported to W. C. Solomon, FHA County Supervisor, serving Cass, Otoe and Nemaha Counties. These loans made by banks, insurance companies, and other private lenders in the 45 of the 48 states, and guaranteed by the federal government, amount to about \$22,000,000. Solomon said enough additional loans have been approved to obligate the government for approximately \$30,000,000.

The national program is in effect here in Cass County. One such loan has already been made in Otoe County, according to Solomon. It is predicted that additional loans would be made because of the growing understanding and appreciation of the program by farmers wanting to enlarge or improve their farms.
