The Stewardship of Money
Lesson for November 26: II Corinthians 9: 6-8
Memory Selection: II Corinthians 9: 7

ONE OF THE STRANGEST characters of whom we read in the Old Testament was Melchizedek, "King of Salem and priest of the most high God." Tithes were given him by Abraham when he returned from the pursuit of the banded kings who had despoiled Canaan. Thus early in the history of religion was the tithing recognized as that which a man should return unto God.

The law of the tithe is enlarged in the New Testament into the law of stewardship. All man has comes from God and is to be used by him as a sacred trust. Nothing he has is really his own, to be used just as he pleases. It is to be devoted to the service of God. A man must give all he can, and he should not fall below the ancient tithing. Let every Christian realize his duty with respect to the money that God entrusts to him. For Christian living is bound up with Christian giving.

Blessings come with faithful stewardship. Paul reminds the Corinthians that he who sows bountifully will reap also bountifully. And in writing the Philippians to thank them for their care of him, he states that their gifts met his needs and were a "sacrifice acceptable, well-pleasing unto God."

So can we find joy and satisfaction in giving, knowing that we share with our Lord and Master as we share with others. Jesus does not need our gifts for himself, but he needs them for his work.

OUR CHURCHES

CHRISTIAN SCIENCE SERVICES

Sixth Street and 2nd Ave.
Morning service at 11 o'clock.
Sunday School at 9:45.

"Ancient and Modern Necromancy. Alias Mesmerism and Hypnotism. Denounced" is the subject of the Lesson-Sermon which will be read in Christian Science churches throughout the world on Sunday, November 26, 1950.

The Golden Text is: "Watch ye, stand fast in the faith, quit you like men, be strong." (I Corinthians 16:13). Other Bible citations include: "Then spake Jesus again unto them saying, I am the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life." (John 8:12).

Tom Carneal Loses Pony

Tom Carneal, local high school student and one of the youthful horse fanciers of Cass county, recently had the misfortune to lose his pet pony, Roxie B. rd, which has brought a very profound sorrow to the owner. Roxie Bird was foaled May 13, 1939. Her first show was at the

county fair in which she received first premium. Her second show was at Bennett where she again took first. The next show was at the State Fair. She took second premium here. Her last showing was at the King Korn Karnival where she placed third.

Roxie had learned seven tricks in two months. Her master, Tom Carneal, purchased her September 14th from Joy Burd of Ashland.

Roxie's sire was Rex Black Squirrel; her dam was Rocket. She was registered in the American Part Blooded Riding Registry at Portland, Oregon.

While Roxie was playing last Thursday noon, she jumped a fence and put her knee joint out of socket.

Her leg was then put in a cast with the help of neighbors and friends.

With all this assistance, however, Roxie's leg had become infected so much that she had to be put out of her misery. But, Roxie Bird still lives in glory.

More than 335,000 children between 5 and 19 years of age in the United States are so handicapped that they need special education, according to the National Society for Crippled Children and Adults.

As American as Thanksgiving Itself

On Thanksgiving Day the sound of telephone bells ring in perfect harmony with dinner bells.

A holiday visit by telephone with loved ones who are away is becoming as much a part of Thanksgiving today as turkey. This year, as in all others, we'll be expecting many callers—especially long distance callers—so please, won't you try to place your calls early? Long distance "night rates" will be in effect all day on Thanksgiving.

For Power with Economy...it's High Compression!

FOR HIGH COMPRESSION...

IT'S THE "ROCKET"!

Ever since Oldsmobile introduced the "Rocket" Engine two years ago, secus like everybody claims "high-compression"—but nobody explains it. The phrase simply means squeezing the gasoline into a smaller space before exploding it. This gets more power out of the same amount of fuel. But the engine must be designed for high-compression all the way through to assure smooth, quiet, gas-saving performance. The "Rocket" is 100% high-compression—from the crankshaft out. And the lowest-priced "Rocket" Engine car is Oldsmobile's "88." Makes good sense to try it soon—doesn't it?
