### Two Boys Town Teenagers Take Farmers Truck

Two teen age boys are back at their foster home, Boys Town, today, after a brief but wild ride through parts of Cass and Otoe counties.

The two are Arthur Bellis, 14, of Las Vegas, Nevada, and Kenneth Hiasinga of Minnesota.

Monday afternoon the two boys took the pick up truck of Calvin Carsten near Ft. George corner, while Carsten was busy in the field. They drove three miles south into Otoe county where they ran into a ditch and abandoned the truck.

Meanwhile both Otoe County Sheriff Kenneth Wiles and Cass County Sheriff Tom Solomon were notified.

When the two law enforcement officers arrived at Ft. George, the two boys were waiting for them. Farmers had picked the hitch-hikers up and returned them to Ft. George.

Boys Town officials were notified and picked the teenagers up Monday night.

### Donations Are Received By Cass Rescue Squad

The Cass County Rescue Squad received several contributions from local citizens during the past week. Sheriff Tom Solomon disclosed today.

Included in the donations were Lloyd Holman, \$25; Fred Curtis of Lyman-Richey Sand and Gravel Company, \$100; and D. M. Merritt, \$100. Another \$25 was obtained through the sale of unclaimed articles, Solomon said.

The money will be used to purchase additional equipment for the squad. New rubbering fittings purchased by the group last week for the portable iron lung cost \$49. Another \$40 was spent to purchase special medical supplies, which can only be administered by a doctor.

To properly equip the squad and keep it in top shape will require additional donations. Sheriff Solomon stated. Persons desiring to make donations may do so by making their checks payable to the squad, and by mailing them either to the Journal office or to Sheriff Solomon.

### Weather Is Cue To Employment; Detassling Slow

The entrance of youth into the labor market produced an upward swing in the number of job seekers in the Omaha area, which includes Plattsmouth and all of Sarpy county.

The increase is concentrated mainly in the clerical-sales category as students who have just completed their training make themselves available for this type of employment.

But with the flow of students and teachers into the labor market, job opportunities decreased 42 per cent for male and 52 per cent for female workers.

Normally the major employment activity in the area during July centers around the hybrid seed corn detassling program. This year, however, weather conditions have delayed the crop and hybrid corn growers indicate that this activity will not start until around July 28 or about two weeks later than usual.
