NOTICE

TO THE RUPTURED: To wear a truss, holding only part time, invites serious trouble by allowing the hernia to enlarge each year. A neglected hernia may be responsible for many chronic ailments such as loss of energy, leg and back ache, stomach trouble and nervousness. Any truss belted tightly around

retards circulation to the legs often causing numbness. Come in and see the NEW TYPE SECURITY TRUSS, which is holding ruptures formerly believed hopeless. W. E. RISHL, who has had many years experience in truss fitting, will explain this truss at/

COW SALE

AT PLATTSMOUTH SALE BARN
PLATTSMOUTH, NEBRASKA
THURSDAY OCTOBER 18
NIGHT

SALE STARTS AT 7:00 O'CLOCK P.M.

84 HEAD SPRINGERS AND FRESH HOLSTEINS

50 HEAD CLOSE SPRINGERS Wisconsin and Minnesota

10 HEAD SECOND CALF COWS
These cows have been milked through their first lactation period and all are bred same as the 50 head of springers.

12 HEAD OF YEARLING HEIFERS
10 HEAD 4 TO 6 MONTH-OLD CALVES

TWO PEDIGREED UNIVERSITY OF NEBRASKA BULLS

No. 1—Imperial Jessie 1128842 out of N. P. Carnation Imperial (sire) and N. P. Rosalind Klaver (dam)

No. 2—N. P. Perfection Victor 1128463 out of Ellenvale King Mooie Perfection (sire) and N. P. Bleske Becky Klaver (dam)

We have personally selected these heifers from the top Dairy Farms of Minnesota and Wisconsin including such breeders as Winn Bros., Blooming Prairie, Minn., Harold Minar, Blooming Prairie, Minn., Bringgold Bros., West Conrad, Minn., Geo. Gross, Owatonna, Minn., and Ed Matzek, River Falls, Wisc. Three top Heifers in this group are from the Ed Matzek herd and are now in production. Others will be fresh in about two weeks. The foundation herd has a record of over 500 pounds of butterfat per animal covering 50 cows. One first-calf Heifer is now producing 46 pounds of milk a day. Most all these animals are eligible for registration. We are selling these fine Holsteins due to the Junior member of this partnership accepting a position with a Commission firm in South Omaha. Not having the facilities on our farm to handle a sale of this kind, we have leased the Plattsmouth Sales Pavilion to make it easier for you to inspect and make your selection from this fine herd.

With respect to all others, we believe this will be as good an opportunity as will be presented this season to buy a foundation for your herd. They're all from big, 1300 to 1400 pound cows and are very rugged, big producers that have taken top honors in Minnesota and Wisconsin dairy cattle shows. The bulls are from the Nebraska Experimental Farm at North Platte and are grandsons of World Champions of only a few years ago.

Remember, statistics show that ONE 500-pound producing cow is WORTH THREE 300-pound producers. Why feed a "boarder?" Get maximum production out of your feed and time. Attend this sale, tell your friends and neighbors. These Holsteins are tops—the real large kind, well marked, fine udders and good teat placement—they'll put your dairying in the money.
