

Five Watershed Directors Are Elected Tuesday

(Continued from Page One) through conservation practices. The same teamwork will be realized on a national scale when the Corps of Army Engineers, Agricultural department and Bureau of Reclamation develop coordinated policies as those of the three county departments.

The coordination of the SCS, PMA and Extension Service were further outlined on a local scale by Richard Ten Hulzen, head of the Soil Conservation Service.

Banks, businessmen and newspapers throughout the county also came in for their share of praise from the watershed group. Financial aid, publicity and membership interest was gained from the three groups.

Some three hundred businessmen, farmers and their wives enjoyed the dinner served by Ruth Circle of the Women's Society of Christian Service of the Weeping Water Methodist church.
