COMMUNIST PARTY AND LABOR

Congressional investigating committees have revealed that Communists are keeping control of certain key unions in U. S. defense plants. Even though these unions are Communist-dominated, under U. S. labor laws, they continue to get Government cooperation.

Most disturbing of all is the fact that, even when they are controlled by Communists, the unions are not listed as subversive. Yet testimony from key union officials, who have repudiated Communism, shows that the Communist Party in the United States controls these unions. Testimony further shows that Communists make up only a small percentage of the total union membership but that these Communists are extremely active and through organization and ruthless tactics, manage to exercise actual control.

Some of the unions under Communist control are in a position to do this country serious harm in case of war with Russia. While Americans do not wish to infringe on the freedom of union members, it is clear that the time has come for some sort of action in this dangerous situation.

Exactly what can be done is a question which is now before Congress, and whatever action Congress takes is sure to be criticized by some labor groups. The situation, however, is intolerable and, if the United States is to be safe from the threat of serious sabotage, Congress must make a positive start toward cleaning up the Communist-dominated labor unions.

* * * LANNING IS PLATTSMOUTH NEED Results of last Tuesday's balloting was

discouraging to many residents of this school district if comments handed this newspaper is a barometer. A number of persons who have devoted many hours of their time and effort in trying to make-Plattsmouth a better community, improve its services to humanity and keep the city on the path of progress, have found themselves burdened with a defeatist attitude —and that is bad.

We try not to let ourselves believe that al Plattsmouth residents are any different than human beings residing elsewhere in Nebraska or the midwest. We are still of the opinion that a big majority of local will prove it at the ballot box if presented lysis, criticism and suggestions. Following powerful man in Washington.

Some weeks ago, this column estimated that foreign aid might, conservatively, total 75 billion dollars for the past dozen years. On the basis of figures recently made available this figure was extremely conservative it develops.

Counting the beginnings o foreign aid in 1940, the total given, authorized or requested now totals 85 billion dollars approximately one-third of the nation's debt.

Each foreign aid program was to be the last, but now under After it was all over. Eric wanted to see him, Wilson, not the Mutual Security Program Johnston, former Economic Sta- Putnam. This did not make the which succeeded the ECA which the Mutual Security Program,

"Wages Too High"-Truman

However, Wilson flew to Key West, where the first thing Truman told him was: "This wage of World War I rifles and amincrease is too high." Acting on munition to the hard-pressed this, Wilson later announced British following the disaster at that the wage increase was too Dunkirk. This was followed by high, whereupon CIO chief Phil Murray, in a rage, refused to March 1941 with an appropriahigh, whereupon CIO chief Phil meet with Wilson, instead phoned Key West, according to assopractically down the president's throat." A few days later, the president came back to Washington

In the interim, the following snarled-up events had happened: (1) Wilson had told the steel industry privately that the wage increase was too high. while telling the public that a billion dollars. wage increase must be tied to a price increase; (2) His irate

stabilizer, Roger Putnam, had got his back up against any price increase at all; and (3) His which was originally set up to price chief, Ellis Arnall, who spend one billion dollars, but had scarcely been consulted. was equally, if not more, opposed to a price increase.

THINGS TO REMEMBER

Politicians should remember that the things that are whispered are usually heard further than the things shouled from the housetops.

Nobody appreciates fire insurance more than the man whose nome purns down

dispute I used to come down and sit with your board and explain why wages couldn't be increased because we couldn't in-

crease prices." ciates

with a clear, well thoughout proposal.

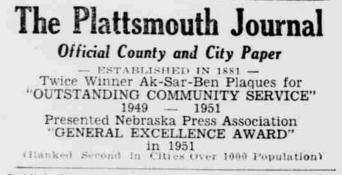

We are not trying to insinuate that the recent defeated program of school modernization was not sound, was too elaborate, or was not within the means of Plattsmouth taxpayers. We are of the opinion, however, that too many of our residents favoring the first proposal failed to go to the polls and cast their vote. Carrying 54 prove to the most pessimistic that Plattsmouth will go along. A modified version submitted at Tuesday's primary was too confusing, gave many voters the wrong impression and, coupled to a large degree with untruthful propaganda, induced them to vote "No."

A majority of citizens are well aware . of the great need for additional class room space in our schools. Most of us know that added facilities must be provided. Most of us also know that Plattsmouth needs and must have an auditorium without delay if this town is to even hold its own in competing with other nearby communities. There is no demand for real estate or apartments in any town that cannot offer more than a gong on a courthouse clock.

We would like to offer our solution to this dilemma. We believe the only possible way Plattsmouth will see these dreams come true is through organization-not of any single club or group, but by every person in Plattsmouth interested in the development and expansion of our town joining together and appointing, or elect-
